The Northfield News Press, Northfield, Vt.

CAPTAIN FRANK TOMPKINS, U. S. A.

This Book

is affectionately dedicated by the

Class of 1912

to

Captain Frank Tompkins, U. S. A.

Instructor in Military Science

and Tactics.

Captain Frank Tompkins, U. S. A.

Captain Frank Tompkins was born in Washington, D. C., September 28, 1868, and has had an active and successful army career. He was appointed from civil life August, 1891, having declined an appointment to West Point the year previous in order to profit from the three years' promotion thus gained. He graduated from the Infantry and Cavalry School, Fort Leavenworth, Kansas, in the class of 1897.

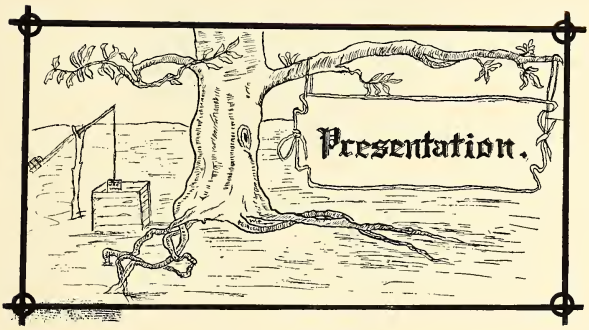
During the Malvar Campaign, under Major General Bell, Captain Tompkins was mentioned in orders, for making important captures, breaking up and destroying insurrecto bands and strongholds.

Captain Tompkins was also mentioned in orders for breaking the world's record, for marching a troop of cavalry in the tropics. This occurred in Cuba in April, 1908, when in command of Troop G, 11th Cavalry. He brought his men into camp at six o'clock in the morning after having ridden 125 miles in 30 hours. Both men and horses were in perfect condition. The troop was composed of 45 men and five officers upon whose arrival the garrison turned out to give a warm welcome. The general in command personally congratulated Captain Tompkins on the splendid record, the performance being a high tribute to his excellent discipline. Major General Bell has said of Captain Tompkins, "That he always commands the best troop in his regiment."

Captain Tompkins is married, his wife being the daughter of General T. F. Barr, retired, a distinguished military man. They have one son.

That so able an officer as Captain Tompkins should be detailed to Norwich University is only another evidence of the continued high regard which the war department has for this institution as a military school. The University is to be congratulated upon receiving the service of Captain Tompkins, insuring as it does a continuation of the highest efficiency in military instruction.

Allen County Public Library
900 Webster Street
PO Box 2270
Fort Wayne, IN 46801-2270



TO YOU, faithful readers, alumni and undergraduates, and to our many patrons, the Class of Nineteen Hundred and Twelve presents this War Whoop.

We have endeavored to make this publication a mirror in which is reflected both the sunny and harder sides of college life, and we trust that our efforts may be accepted by you in the same spirit in which they have been written.

Our sincere thanks are extended to all fellow students and others who have so kindly assisted us in preparing the grey matter for this volume of The War Whoop.

Cordially your friends,

THE EDITORS.

Commencement

Commencement 1910

SUNDAY, JUNE NINETEENTH.

3 P. M. in the afternoon.

Baccalaureate Sermon, Dewey Hall.

THE ninety-second Commencement of Norwich University opened Sunday, June 19th, by the Baccalaureate Sermon delivered by the Rev. Sherman Goodwin of South Royalton. The chapel was filled with Cadets and friends, who listened with interest to the message delivered by Mr. Goodwin.

The exercises in the hall were followed by evening parade.

MONDAY, JUNE TWENTIETH.

2:30 P. M. in the afternoon.

Austin Trophy Contest, State Range.

All those who had qualified as expert riflemen in the previous State Rifle Practice, were allowed to enter the contest.

Sergeant Roscoe P. Lynde, Co. A., won the Gold Medal by scoring 125 points out of a possible 150. Sergeant Denton J. Smith, Co. C., won the Silver Medal with the score of 124. Sergeant Smith was awarded the Silver Medal because he scored higher than Sergeant Walbridge did, at the longest range.

The winners of the medals in 1909 were not able to defend their medals so could not hold them permanently as stated in the conditions governing the contest.

These medals are given by Mr. Fred T. Austin, M. S., First Lieutenant, Artillery Corps, U. S. A.

TUESDAY, JUNE TWENTY FIRST.

On Tuesday the friends of the Cadets began to arrive. The day was taken up largely by preliminary contests in horsemanship. Dress Parade was held in the evening for the visitors, and at 7:30 in the evening the Seniors presented their annual commencement concert. The entertainment this year was by the Delphians of Boston. The following program which was rendered by them was interesting from start to finish and enjoyed by all.

TRIO ..... Serenade ..... *Widor*
Violin, Viola, Piano
BARITONE SOLO ..... My Dreams ..... *Tosti*
READING ..... A Labrador Legend ..... *Gilbert Parker*
VIOLIN
A Fantasia Appassionata ..... *Vieuxtemps*
B Allegro Moderato ..... *Hubay*
C Largo ..... *Handel*
D Salterella ..... *D'ambrosin*
BARITONE SOLO ..... Chip of the Old Block ..... *Squire*
MONOLOGUE ..... Her First Symphony ..... *Sperry*
TRIOS ..... Barcarolle ..... *Offenbach*
Moment Musicale ..... *Schubert*
BARITONE SOLO ..... Serenade ..... *Schubert*
With Violin and Viola Obligatos
READING ..... Mandy's Organ ..... *Higinson*
GARDEN OF ROSES ..... *Schmidt*
By the Company

At ten thirty the annual commencement banquets of the fraternities were held.

WEDNESDAY, JUNE TWENTY SECOND.

Alumni Day.

Wednesday the twenty second was Alumni Day, beginning with an informal reception at Dewey Hall in the morning. At three in the afternoon the Alumni Baseball team lined up against the varsity team. The game was interesting, but the score one sided, being seventeen to eight in favor of the varsity.

At four thirty the alumni business meeting was held in Armory Hall. In the evening there was a reception at the home of the President. Most of the guests departed early to attend the Social Assembly of Alumni in Armory Hall.

THURSDAY, JUNE TWENTY THIRD.

Commencement Day.

At nine thirty the corps of cadets escorted Governor Prouty and General Ripley to the open enclosure where the commencement exercises were held. After which the following program was carried out:

MUSIC, The University Clubs.

PRAYER.

By the University Chaplain, The Reverend Walter Dole.

MUSIC.

ADDRESS.

By General Edward H. Ripley.

MUSIC.

Presentation of Medals; Honorable Mention.

Presentation of Diplomas by His Excellency, Governor Prouty.

MUSIC.

BENEDICTION.

By the University Chaplain, The Reverend Walter Dole.

In the afternoon a large crowd witnessed the review of the corps by the Governor. This was followed by the commencement drills, which consisted of battalion and cavalry drills, battle exercises and escort to the color, and finally evening parade with the announcement of promotions and the review of the corps under its new officers by the senior class. The commencement exercises closed with the Senior Ball given in Armory Hall.

General Commencement Committee.

GENERAL COMMENCEMENT COMMITTEE.

The President,
Trustees Howe and Cady,
Professors Roberts and Winslow.

COMMENCEMENT 1910.

Degrees Conferred.

Bachelor of Science in Civil Engineering.

Harold Augustus Ainley, Chester, Vt.
Julian Wilmot Alger, Stowe, Vt.
Louis West Balcom, Claremont, N. H.
Charles Fred Campbell, Lowell, Mass.
Charles Butters Carswell, Barre, Vt.
Woon Loy Chun, Shanghai, China.
Everett Collins, Nashua, N. H.
Tyler Wesley Earle, Chester, Vt.
Walter Bradshaw Frost, Cristobal, Panama.
Everett Trowbridge Giles, Lowell, Mass.
Harold Albert Kendall, Gardner, Mass.
Lewis Underwood Kennedy, Gloversville, N. Y.
Hermon Harrison Kinsman, Rochester, Vt.
Freeman Light, South Norwalk, Conn.
Allan Walton Reid, Barre, Vt.
John Thurman Rich, New York City, N. Y.
Kenneth Foster Stebbins, Northfield, Vt.
William Schakowski, Claremont Junction, N. H.
Carl Percival Strobell, Rutland, Vt.

Bachelor of Science.

Paul Sumner Emerson, Brattleboro, Vt.

Bachelor of Science in Electrical Engineering.

William Frederick Johnson, Lynn, Mass.

Bachelor of Arts.

Frank Lewis Robinson, Stowe, Vt.
Joseph Howard Whitney, Franklin, Vt.

IN COURSE.

Freeman Parker, '47, C. E.
Joseph B. Young, B. S., '50, C. E.
Obed Foss, B. S. '50, M. S.
James E. Lindsey, as for '47, B. S.
B. Franklin George, '52, C. E.
William M. Bates, as for '55, B. S.
Charles E. Wentworth, as for '65, B. S.
Charles H. Wood, as for '65, B. S.
William E. C. Sweet, as for '68, B. S.
Samuel D. Conant, '72, M. S.
Charles G. Griffith, '72, C. E.
George W. Metcalf, as for '73, B. S.
Frank J. Saxe, as for '74, B. S.
Frank C. Hatch, as for '76, B. S.
Charles J. Luck, as for '76, B. S.
Holton R. Dillingham, 1906, C. E.
George E. Dearing, as for 1881, B. S.
Holland Wheeler, 1859, C. E.
George O. Tyler, as for 1857, B. S.
Frank L. Howe, as for 1881, B. S.
Clarence E. Randall, as for 1882, B. S.

HONORARY.

Fred W. Gregg, 1873, LL. D.
Wm. R. Mead, 1864, A. M.
Edward L. Stoddard, 1863, A. M.
Oscar E. Learned, 1855, A. M.
William B. Mayo, A. M.
Edward H. Ripley, A. M.

MASTER OF SCIENCE IN COURSE.

Joseph Cleophas Coulombe, B. S., 1904.

CIVIL ENGINEER IN COURSE.

Fred Thompson Bass, B. S., 1901.
Oliver Yeaton Leonard, B. S., 1907.

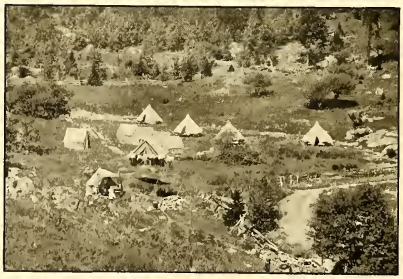
SCH

Senior Summer School

THE Monday following Commencement there gathered at Dodge Hall Dad Winslow, Pat Carleton, Jimmie O'Hanlon, and Socrates Dix and twenty-nine members of the class of 1911. Each man came with a particular intention. Pat and Socrates were watching Dad's check book; Jimmie was figuring how much potatoes and soap he could spare for the cows, and the Seniors were looking for anything that was a graft. Such intentions differed so much, however, from that of the wielder of the big stick that they all took second place when Dad said, "That they were to put in four weeks surveying for a railroad."

The first day was devoted to transporting the baggage and equipment for making camp so that summer school could begin. It came at 6 A. M.,

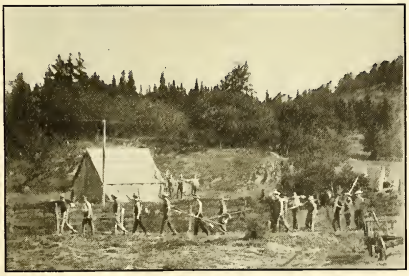


when that groan producing call, "Everybody Out," emanated from headquarters. After all had eaten breakfast and roll had been called, the instruments were shouldered and at the command, "Down the Road," everybody proceeded to the station last set by the class of 1910 and took up the work of continuing the survey.

Many were the experiences of these engineers in making the survey for the Stony Brook Railroad. Running a P. line was great until we struck Mosquito Land, then it was a different story. None except Ed. Hovey ever saw such affectionate insects as were encountered there. When Ed. told about the enormous mosquitos that prevailed on his grandfather's farm, however, all agreed that it was some consolation to know they were not in the worst place on earth.

The work progressed very well without a stop until Dent's supply of chewing gum was exhausted, then operations ceased for an hour and twenty minutes while Dent walked five miles to town and back to replenish his stock. After we had run enough P. Line to work on the rest of the session, we went back and run in the Location Line. This did not cause much difficulty except that whenever we tried to check the work we found too great an error in our transit work. This error was reduced to a minimum, however, when Dorr explained how to split hairs and the rest of the work was accomplished with speed and accuracy which was something marvelous.

No one ever saw a bunch of fellows who were enjoying themselves any more than the men in our camp. Mayor O'Hanlon, with his faithful followers O'Riley, O'Creed, and O'Donahue, tried to make out that every other day was Saint Patrick's Day, otherwise it was a very congenial aggregation. Do not think, however, that they did anything rash, for the worst that any of them did was to make way with the milk that was kept under the bridge. Strange to say, there were only two nights of our stay in camp that any one was aroused from his slumbers. One of these instances was the night Jimmie slept with the boys, and the other was



when Field dreamed that he was an egg, only to wake up and find out that he was, to the extent that he was only sandwiched.

Thus you see how the class of 1911 looks back upon its last Summer School. And you under classmen, take it from the Seniors that in the line of good times at Norwich, Senior Summer School holds first place.

Junior Summer School.

The summer of the year 1910 will, without doubt, go down in the history of the world, as one of the best if not the most, notable summers that has been recorded since old Father Time took the job of making the earth go around. This is due also, we believe, solely to the fact that the ancient and honorable class of 1912 took this time to tear off, what has come to be known as JUNIOR SUMMER SCHOOL.

This so called school was down on the calendar as beginning at 10 A. M., Tuesday, August 8, 1910 A. D. Accordingly some of the more industrious among our number appeared on the scene at 10 o'clock sharp. Still others, believing it the height of good manners to be late at all social functions, put in their appearance next morning. Others showed up not at all. That accounts for all of us,—briefly, some were present and some were not. Only one instance was brought to light of a member being only "half present." Three Guesses!

Roll call for the first day's work,—which by the way was Wednesday, brought to light an ideal collection of costumes. I venture to say that, could an "antique costume" collector have had the privilege of gazing on the varied collection, there would have been tears of joy in his eyes. Everything from a full dress down to an aborigines conception of hot weather garb might have been seen. There was "Bill" Scanlon with his Louis (XII) sack coat. There was "Teddy" Adams with his African hunting outfit, a'la T. Roosevelt. "Bill" Heathfield came out with a fine new Tuxedo (tobacco can). And I might go on to enumerate grotesque outfits by the score but lack of space and the weather will not permit.

A row of teeth was to be seen on the face of each of our instructors, due, we surmised, to the merriment they evidently derived from the fact that they were about to perpetrate some huge joke upon us.. Joke is just about what it turned out to be, for the great majority of us were used to about a fifteen hour day spent at digging ditches or pounding rocks (?) ! There was Prof. "Pat" known in real life as Prof. C. S. Carleton, who later developed an alarming habit of turning up at the most unfortunate places, at the most untimely times, much to our discomfiture. He kindly assumed the responsibility for the field work. Mr. "Dad," sometimes known as Prof. A. E. Winslow, was chief of the office "gang," and occasionally took great pleasure in showing us the error of our ways. Prof. L. E. Dix was still another one of the sleuths whose duty it was to look wise and to see that we didn't loaf too much. The fourth and last member of the "wise ones" went by the name of Marshall Stocker, and later acquired that excellence in locating "spikes" buried in the road which only long and continued practice can give.

The aggregation of knowledge seekers was divided every day into parties consisting of from three to five men each,—mostly three, and assigned sufficient work for the day. The work was of four classes,—leveling, stadia, road work and geodetic. For some strange reason the last named came to be the most

popular, due, probably to the minimum amount of work gaining the maximum amuont of credit. It was on these parties that the weary made up most of their lost beauty sleep. The only reason we know for reducing the number of men on each party from five to three, was that our worthy classmate, "Dub" Inglis, inadvertently took the wrong time to repose in the arms of Morpheus, and subsequently was found by that aforementioned sleuth, "Pat Carleton.

The general plan of our work was to do the surveying necessary for running new street lines, establish the necessary grades for a sewer system, and to add as many new stations to the triangulation system as possible towards Camel's Hump. The street lines and the sewer system were done for the town of Northfield.

Rainy weather was ruled out of order by our esteemed weather prophet. It was our misfortune to get only two or three days of inclement weather to dampen our ardor, and enthusiasm for work. The only ambitious specimens who went down on the records for working right through the rain, were Adams, Jacobs Bros., and Hemenway. Of course you can't blame some people for what they don't know!

The "powers that were" were very considerate of our likes and dislikes as regarded working hours. They stated emphatically that no night work was to be done. However, some of the "fussers" got in their alloted time evenings with the fair damsels of Northfield and vicinity. I will state, however, that "night work" as stated by the Professors had reference simply to academic work, and not to social obligations. Beginning with the second week Bradley started on the downward path. The first indication of his downfall was his misfortune in being discovered downtown after seven P. M., walking the street and strewing peanut shucks all over the ground, with that air of deft precision and nonchalance that is Bradley's stock-in-trade. We are afraid he will wake up some fine morning to find himself forcibly urged by his Satanic Majesty to hustle it up, and not let the fire go out!

One of the features of the school was the course in nature study, which in part constituted some of the work done on King Street. There, one could get an excellent view of the magnificent green hills which formed the background, as well as the imposing public buildings of sky-scraper effect which lined the avenue. The citizens living in this region were only too willing to give us all the information desired, and many were the pleasant chats engaged in by the fair King Street maids, and would-be-engineers.

Our work took us into all sections of the town, and also over the hills and surrounding country. The people of the town as a whole won our sincere and heartfelt thanks by the many little kindnesses which they bestowed upon us. It was not a rare thing for us to have some kind lady bring out cooling refreshments, or dainty articles of cooking, to keep us good-natured.

The work assigned to the level parties was leveling the streets and establishing bench marks, and leveling up to and connecting with the Senior Railroad about four miles up Union Brook Valley. The steret leveling was an ideal work as we could always get in in time for dinner at noon. Connecting with the Senior Railroad was more difficult, as we got out so far that it became necessary to carry luncheon. There was, however, in this work the prerogative of sending for Barney Bogus and his taxicab. This was seldom done, however, as most of us preferred the quiet siesta while the instructors went in early for their dinners.

The stadia work consisted of measuring street lines and determining elevations by the "stadia system." The location of houses, trees, hydrants, fences, and boundary lines was also included in this work. It was on this work, that the cutting of from five to three men per party, was most keenly felt. There was plenty of work for five men, and for three to do it, of course the efficiency of the party was considerably lessened. Which all goes to show that

The way of the transgressor is hard.

Road work was that done on the Northfield sewer system. It consisted of running street lines and taking profiles. It was on this work that it was necessary to go into houses for the purpose of measuring the cellars. The replies we received, when we asked permission at the houses, to go in and measure their cellars, were certainly great things to show up human nature. Some, and in fact the majority of people had no objections to our entering their cellars. But there were a few, of course, who had to growl and grumble, if not absolutely refuse to let us in their cellars. We may pardon them their breach of good manners on the supposition that they might have thought we were looking for booze, or other incriminating evidence.

The prize package of work was that known as geodetic, sometimes called "Joe Detic" surveying. This work comprised setting up over one station and reading the angle between other stations on different hills. These stations were placed on tops of hills and on prominent points in such a manner as to be visible from several other stations. The beauty of this work was that we were left almost entirely alone, as the instructors didn't very often have the ambition to try to reach our elevated stations. It took one man about an hour to read one set of angles due to the many repetitions necessary, and thus time for leisure for the rest of the party was provided. This leisure time was mostly spent in wooing that fickle being "Sleep."

The office gang had the gentlemen's work. All they had to do was to dress up and look wise, and trust to luck of making the bluff go. It was their duty to keep the field work plotted out, to make maps and details, and to make computations and correct the errors in the field notes. For the most part it was not a job much sought after as the aforementioned boss of the office gang did not encourage loafing as a pastime.

A couple of days before the end of the school "Big Jake" was sent as a representative to Burlington to negotiate for the purchase of a suitable "Golden Spike." As it was a rush order he had a hard time finding a jeweler's shop who could fulfill the order. However, Jake was not discouraged,—Oh, no! Not a bit,—and finally he got the desired shop where he left his order, and

made arrangements for the transportation of the spike. Upon its arrival in Northfield it was zealously guarded, and carried to room five, Jackman, where it was placed under lock and key. After supper the last night of school the class assembled in the presence of the spike, and proceeded with the solemn work of sinking the memorial. Speeches were made, songs were sung, cheers were given, and a log of the past month was read. Then "Sam" Cannon, as master of ceremonies took the floor, made a pretty dedication address, and as he drove the spike to the last resting place, said, "Gentlemen, the Golden Spike of the class of 1912 has been driven, and I, as befits my position, do hereby announce that Junior Summer School for us is now a thing of the past, and therefore declare this assembly of the class of 1912 to be adjourned."

H. J. W. '12.

Sophomore Summer School.

"Summer School, Sophomore Summer School, where have we heard that before?" To every Norwich man it sounds familiar. It means different things to different men, but to each and every one it signifies his first experience at Norwich without the military life. Two whole weeks of field work and no study hours, no formations, no recitations whatever outside of nine hours a day in the field.

It was a beautiful day, August 23, 1910, when about thirty of the class gathered at Dodge Hall and entered upon their careers as engineers. We were divided into parties of five or six each and given over to the tender mercies of the Seniors, who were to be our instructors. After being told a few things about the work we went up to the third floor of Dodge Hall where we were separated from two dollars, and were put into possession of note books, plumb bobs, pencils, etc.

In the afternoon we got down to the fine points of surveying and did wonderful things with the tape, axe and stakes. The different parties worked in places about the hill, the best place being, of course, where there was the most shade. Before we knew it the afternoon was gone, and we returned to the office, our first day of summer school was over. Of course study in the evening was not absolutely

necessary; but nearly all (?) of us being of a very studious nature and industrious stayed in our rooms in order to fix in our memories the things which we had learned. This was by no means a newness which was soon to wear off.

On the third day we were given new compasses to use in our work. They were used during the whole summer school in combination with other kinds of work.

There was a little rivalry between the different parties as to which could do the closest work. Naturally this tended to make each party more careful in its work. But it was very noticeable that the last party to tell how close it came out on its polygon or in leveling was nearly always the one who checked the closest. Of course once in a while some one insisted upon taking up and moving the instrument and the T. P. at the same time, but all this was soon overcome, and we were able to make the instructors do some hard thinking. It did not take us long one afternoon to learn that we had rather do field work than balance polygons.

We were not a little disappointed when we found out that we would have to take the examination Tuesday afternoon. We believed that we ought to be at liberty to get acquainted with the rooks. However, we were very sorry when summer school was over.

THE TROOP AT PINE CAMP.

The Norwich University cadets with their horses, accompanied the First Vermont regiment to the recent encampment of the regular and militia troops at Pine Plain, N. Y., to perform the duty of mounted scouts for the Vermont infantry.

One of the last war maneuvers of the camp was a war problem to be solved between the Maine and Vermont regiments. Due to the very efficient manner in which these ten cadets performed the duty of mounted scouts the Vermont regiment was thoroughly victorious over the Maine regiment.

Captain Frank Tompkins, U. S. A., instructor in military science and tactics at the University, received the following letter from the adjutant of the 1st Vermont regiment, which indicates the appreciation of the work of the cadets:

Sir: I am directed by the commanding officer of this regiment to express his extreme satisfaction with the manner in which the duties of the ten cadets from the Norwich University, transferred to this command for duty as mounted orderlies at Pine Camp, were performed.

Particularly the commanding officer wishes to mention the efficiency of these cadets in performing the duties of mounted scouts for infantry. Accurate information, promptly and intelligently reported, which was gained in an incredibly short time, not only enabled this command to, without qualification, perform its mission in the problem, but was said by the senior umpire to be the finest piece of mounted orderly work seen in camp. The advantage of well trained mounted scouts with infantry was demonstrated without question in the problem above mentioned.

Very respectfully,

(Signed) GEORGE H. THOMPSON,

Capt. and Adjt. 1st Inf. Adjutant.

THE HIKE

Reminiscences of a Rook on the Hike of 1910.

OH h-h-h, what an unearthly hour for a civilized being to get up, four-forty-five, just think of it, quarter to five, and we have to crawl out of our nice little beds, just because that bugler tooted his little brass horn.

But never mind, most of us are pretty excited, we're going to White River Junction today, to camp at the fair.

Let me see now, Sunday was the eighteenth, then today is the twentieth of September, yes, the twentieth of September, nineteen hundred and ten, just think, some of us are going to be fifty odd miles nearer home in five hours.

What's that? Oh yes, we'll have our bundles done up strong, so blamed strong that they wouldn't come apart if you put them through a stone crusher. Oh, I guess we have sent bundles on the train before, even if we are only two weeks old, Rooks. Yes, I think, hot coffee would be great, but what do we carry it in? In what, oh sure, why certainly, we knew all the time that the Canteen was for that.

Say you, what's that call, Retreat or Assembly? Mess! Oh sure, I might have known it If I had only counted the notes. I'm so blooming sleepy that I can's see the hands on my watch. What time is it?

Hurrah, breakfast is over, and we are almost ready to start, really we are all excited; no I don't mean that; we're soldiers now and can't get flabergasted, but still I rather wish things would move faster.

At last we are on the train comfortably seated, but not for long. Alas, we are insignificant Rooks, and must entertain the upper-classmen with our songs, poems, speeches, official names and such things. Fancy and foolish stunts, which are handed down from one generation to another, helped to make the time pass more rapidly.

The Fair Grounds were at last reached and some of us, for the first time in our lives, marched before a large crowd of on lookers. The camp was soon reached, however, and then came the task of putting up the large conical tents, each squad had a tent, and each company had a street, so they all went up regularly. After they were up came the task of ditching them. This is a process of digging up the turf around the tents and leaving a gully for the water to run in, thus keeping it out of the tents.

At last we were free to walk around the fair grounds and amuse ourselves; this we did with pleasure, for to most people a Country Fair is exciting. All along the street the fakers were yelling, "Here's where you get your fortune told," "Here's the best ice cream on the grounds;" "Don't go by here without seeing the great mechanical toys of the world;" Here's your American Beauties, fifty-seven varieties like Heinze's Pickles;" "Here's Electricia, the only girl in the world who can stand ten thousand volts of electricity without flinching." Of course we had to take these all in, for what fun is there at a fair if you don't.

Taps was a cheerful sound that night and most of us were so tired that after a few moments we forgot we were sleeping on the ground and not on a mattress. But never mind, under two nice army blankets, we snoozed to our heart's content.

Reveille sounded at the regular time Wednesday morning but oh! wasn't our clothing wet, and wasn't it foggy? indeed it was so heavy that a person might think that he was in London for a few moments.

After a few Calisthenics, and a semi-ice-water wash we lined up for breakfast. It was good, too. The cooks, who were from Fort Ethan Allen, certainly deserve praise and the meals were served in a Plaza style.

Tuesday and Wednesday mornings we had our regular drills and police duty, and in the afternoons there were exhibition drills. The troop showed up well, and the school ought to feel proud of it.

Guard duty was a new thing to bother most of us for we had our first experience of it at the fair. Around midnight, we began to get sleepy, but we were soldiers now, and must watch. Nevertheless, some one is known to have gone to sleep on Post No. 4, at the barn.

Friday morning we broke camp, and got every thing loaded on the teams and were ready to start on our first parade at the end of the foot ball game in the afternoon.

Norwich easily defeated St. Michaels in the afternoon by a score of 34-0. St. Michaels had a good team, but were neither

heavy nor fast enough. The game was attended by a good crowd and was very exciting at certain stages.

Immediately following the game, the boys after policing the ground left for West Hartford, which was to be our stopping place for the night. The roads were very dusty, and as the writer happened to be Old Guard that day he had to trail behind with the wagons and eat dust.

We pulled into West Hartford about half past seven, and it was dark at that time, so our shelter tents were pitched in about any place possible. Very few waited to hear taps at night, but unfortunately our company street was alongside the railroad track, and some tents were extremely near, so that every passing train woke up the participants.

Saturday morning came as usual, and the Cadets arose early and surveyed the grounds where they had spent the previous night. Some were slightly surprised, others were more so at the position of our camp.

About the middle of the morning, we started with heavy marching order for South Royalton, a distance of about nine miles. With jokes, songs, cheers and stolen apples, we reached there in due time, slightly tired and a little hungry, but in the best of spirits. We stopped here over Sunday. Saturday night there was a football dance in the open air Pavilion, the music was rendered by the Norwich Orchestra and a large party enjoyed the event.

Sunday was passed in various ways, some attended church, while others slept. At night we had an enormous bonfire, and sitting around it, we sang songs, and heard a few speeches by Major Smith and some of the football men.

Monday we were again to start on our hike; this time there was to be a sham battle to make things interesting. Co. D. accompanied the wagons, and Co's. A. and C. with the troop, were to attack them when we caught up with them. We were all given blanks, and Co. D. with the wagons started for Bethel. About a half an hour later Co's. A. and C. with the troop, started pursuit. A little over half way to Bethel the companies heard firing, and when we rounded the corner, we saw troop B. in a hot skirmish with Co. D. Instantly our squads were sent out, some up on the hill, others over on the railroad track; our squad went over to the track. On each side of the track was a high wire fence which had to be gotten over,

and our orders were to go under. Two of us started under when the rest decided in unison to go over; the consequence was that we two unfortunates stayed under the fence like prisoners until the rest of our squad was over.

The Battle was well fought in some points, and very poorly in others, but it gave us Rooks a slight idea of what to expect in June, when we reviewed everything.

A tired and dirty bunch strolled into Bethel that noon, but soon the shelter tents were up, and we were resting peacefully for dinner.

Guard duty again struck us at this stop, and we walked at night to watch the horses.

Tuesday morning the Cadets witnessed a genuine Vermont rain storm, and it was indeed a mean day. A general assembly was blown, and a vote taken whether or not we should walk through to Northfield, the next stop on schedule was Randolph. A unanimous vote was cast in favor of Northfield, and after packing our bundles, we started with only poncho, sidearms, rifle and canteen.

This portion of the hike if completed, we knew would form a new record for the military school and college world, and also, if completed, would give us our nice little white iron beds to sleep in.

The goal was a great one, and try we must. Our motto was, "Heads right up and tails a flying." This with songs and cheers kept us going until we reached Randolph. There our good cooks made us some glorious hot coffee and toast, which tickled our insides and made us feel dandy.

Several fellows thought that they had sufficient excuse to drop out here and took the train in, but undoubtedly they will think twice before indulging again.

The rain never failed to fall that day: the roads were in perfect conditions. Oh, yes. But we started on the last leg of our famous hike. Many of us were wet through before reaching Randolph; those that wern't, were wet now anyway. Those who were in the best condition, tried to keep the spirits up, and succeeded well. Our Commandant, Captain Tompkins, gave up his horse to a lad who was

all in, and walked the last 14 miles with us.

This last day of the hike will long be remembered by all the participants for everything in Nature was against us. One of the worst rains of the season. The march was over several small mountains, the roads were extremely bad, the distance was twenty seven miles and the time of actual hiking was six hours and forty-five minutes.

A. W. M. '14.

Norwich University Commons Club

Since the dissolution of the Commons Club during the winter term of 1910, there has been no democratic organization in the college into which the non-fraternity men could be admitted. To meet this demand for a Commons Club, the men of the two upper classes met and formulated plans for such a club to be located at present in the Dole House, in which several organizations have been born. Articles of incorporation were first drawn up in order to place the organization on a good firm basis. These articles were made a law by the General Assembly of the State of Vermont in January, 1911.

The rooms were furnished at the Dole House so that the members can enjoy the bits of home and club life they do not ordinarily get in college.

It has been the aim of the founders to so frame the constitution that it would help the development and growth of a better college spirit.

As a result of a custom in vogue at Norwich, this society was founded by the Junior Class. The meaning of the Greak Letters comprising its name have creaed some discussion, and the combination of names advanced has been interesting as well as instructive. Such names as "Death to Muckers," "Dam the Military," and "Dont' Touch Mechanics" might possibly get by.

The meetings of the clan were pulled ofi once a month, at which time the elect are allowed to smoke one cigarette as an opener. After that the sewing for the month is taken up, followed by such games as "Going to Barre," "Spinning the Platter" and etc. A list of those who "also flew" is read as a closing prayer for the gathering. The meeting then breakes up,—some to "hit the hay," while most of us settle down to grind with the midnight oil (?).

I fain would continue this literary effort and masterpiece, but can't see any possibility of so doing, as the Editor states explicity, that not more than half the book can be dedicated to this cause. So, "Good Night."

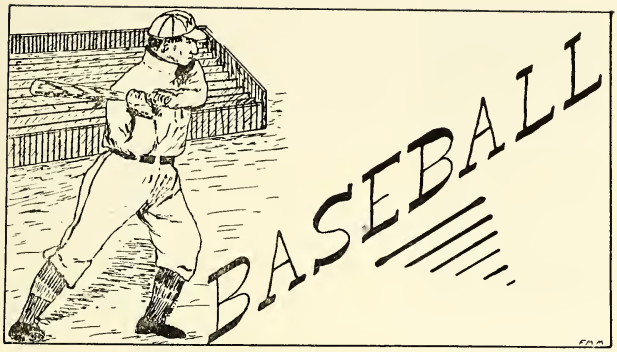
Athletics in General

At the Military College of the State of Vermont, we have three forms of athletics, Football, Baseball and Military drill. The first has developed wonderfully in the last ten years, for whereas N. U. used to be lucky to defeat Goddard Seminary, this year she won the Championship of the State by walloping U. V M., Seventeen to Zero. The second has probably developed as much in five years as the football has in ten and I firmly believe the greater part of the development has been due to the efforts of Dr. Whitney and his close attention to details. I will digress a little and bring out something that perhaps you've not thought of heretofore. After this matter of the rise of N. U. Athletics has been boiled down and sugared off, it is my opinion that the true cause will be found in the ever-increasing number of students from "down country," in other words, civilization. It is nice, I know, and rather romantic, to go drifting on, shouting the praises of some big husky "phenom." from the country and expecting him to be a "Coy" or a "Collins." Nothing doing. Athletics are either born or trained. The natural athletes are few and far between. Training brings forth the majority, and now here's the point—the athletically inclined student at the city high school or an up to date down country prep. school gets that training from his contests with other well trained teams. Also there are better coaches and physical directors to give these men instructions.

N. U., as yet, has failed to recognize that, that which built up Dartmouth, Brown, University of Chicago and many other colleges, was athletics and not a huge pile of books, suggested by catalogue crammed with courses. As a lid on this little spiel I will state that the greatest fault in N. U's. development of athletics is the fact that it is a "poor man's college" and whichever way one turns with a new project, he is blocked by a lack of funds. It's the same old story, "Money is Power;" this applies in the athletic world as well as any other.

F. V. H. '12.



Baseball 1910

Norwich has to look back on the season of 1910 with a fair degree of satisfaction and with added hopes for the continuation of the steady gain shown in baseball.

Although not winning a majority of the games scheduled, still she won a good share of them. Several games were lost by very close scores, Norwich outhitting her opponents, but losing by unfortunate errors or stupid work on bases.

The team was an exceptionally strong hitting one, outhitting every team they lined up against, with the exception of Vermont, whose perfect baseball diamond seemed to give them an attack of "buck fever." Those who saw the St. Lawrence and St. Michael's game can appreciate what a hard hitting team we had. Even the mighty Fisher (who has since made good in the box for the N. Y. Americans) experienced the Biblical adage that "Pride goeth before destruction and a haughty spirit before a fall." The rude manner in which his speed and curves were bumped, on Memorial Day, sent him home chastened in spirit; pricked the bubble of Middlebury's confident hopes of an easy victory and sent her supporters home in their special train, enveloped in gloom, minus cheers and money, and with the cold fact indelibly impressed upon them that a one man baseball team is not invincible.

The team lost only two men by graduation, Captain Reid and Earle, 1st Base; both men were strong hitters. Hemenway whose batting was the sensation of the season, was elected captain. He should make a strong leader as his game is a consistent one at all times. Gordon again played short and acquitted himself very creditably. Parkman pitched a majority of the games, and his work showed a steady improvement over that of last season. Berry, a freshman of whom much is expected this year, pitched a few games and showed good form.

The freshman class was well represented on the team. Murray, an Exeter man, although an outfielder, cheerfully played any position he was placed in,

A. W. REID

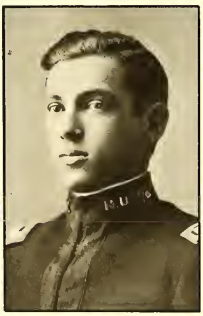
DR. H. A. WHITNEY
Coach

F. V. HEMENWAY
Captain Elect 1911



H. H. KINSMAN
Manager 1910

H. N. GORDON
Assistant Manager 1910
Manager Elect 1911

doing the greater part of the catching. He was the fastest man of the team on the bases, his great speed in getting to first on bunts turned many seemingly easy outs into hits.

Hayes, another freshman at 3rd, played a fine fielding game the whole season, his throws to first being exceptionally accurate and speedy. He steadily improved in hitting and at the close of the season was batting consistently; great things are expected of him the coming season.

Second base was occupied by still another freshman, Burwell. Though very crude at first, he developed very rapidly in his fielding game, until at the close of the season, he was playing the best game at 2nd, that had ever been played for Norwich. It is hoped that he will still continue to improve the coming season.

The official batting averages were unfortunately lost at the close of the season, but the averages printed below are not far out of the way.

Hemenway	.475
Earle	.375
Parkman	.365
Reid	.340
Gordon	.320
Burwell and Carpenter above	.250

Hayes and the rest below.

Earle at 1st Base made 2 errors out of over 100 chances.

Platt fielded for 1000.

Norwich was represented on the diamond by a team who never gave up fighting for the game, and were never defeated until the last man was out. They played a hard, clean game, and were gentlemen on and off the field.

Foot Ball Season 1910 at Norwich

With the beginning of the 1910 foot ball season at Norwich, a system of graduate coaching was introduced and it certainly proved a great success. "Peanut" Potter of the class of '07 was secured to coach the varsity and made a team that will long be remembered for its playing.

Practice was started the first week of college, over two full teams being out, but the next week brought out enough more old men to increase the squad to thirty-five men. Practice was carried on at the lower parade until the corps left for the State Fair, and during each day of the hike the men worked diligently, practicing on the land opposite the large grand stand.

The first game of the season was played with St. Michael's College, of Winooski, at White River Junction. Norwich winning by the score of 32 to 0. During the game nearly everyone on the squad was given a try out. The game was very one-sided as the score indicated, the lighter men from Winooski being outclassed by their heavier and faster opponents.

The Amherst and Brown Games

Tuesday, the team, after being cheered by the corps, left Bethel for Northampton to be ready for the game with Amherst the following day. The Amherst-Norwich game was won by the former 17 to 0, but the game was not as one-sided as one would think. Amherst scored twice during the first period on fumbles by Norwich and on a blocked kick which Amherst recovered. Amherst scored its only touch down, not seconded by a fluke, during the second period on forward passes and line plays. When the third period opened Norwich came back strong, carrying the ball the length of the field on trick plays, forward passes and end runs, only to lose the ball on a fumble after the Amherst line had been crossed. During the remainder of the game both teams tried to score but neither succeeded.

After the Amherst game the team went to Providence where practice was carried on in preparation for the game with Brown the following Saturday. Norwich hoped to hold Brown to a small score and cross her line if possibe, but was not successful in either. Throughout the first period the game was fast, the Maroon and Gold line holding her heavy opponents on the one yard line for downs, but during the remaining periods of the game the weight and speed of the Brown team told and they rolled up a heavy score. Brown used twenty-three men during the game, against thirteen of the cadets, and was thus enabled to play the new style game to advantage. During the second period Brehmer was taken out on the game with a fractured elbow, and Cannon, whose loss was felt at center, with a sprained ankle.

The Wesleyan and Trinity Games

The next game was with Wesleyan and the time before this game was spent in hard practice and making changes in the line-up. Underhill was shifted from tackle to fullback; Captain Smith, who had not been able to play thus far, took his regular position at right tackle; Kelley changed to right half to replace Hemenway; with these changes and heavy practice, the team played Wesleyan and was defeated 17 to 0. Several times the Norwich team was within striking distance, only to fumble.

The changes that had been made in the back field worked to good advantage, but the line did not have the snap that it showed in previous games. Carpenter was laid out in the last quarter on account of an injury to his back. Up to this time he had been playing a fast game.

On October 22, Norwich went to Hartford where she played Trinity, and lost 9 to 0; this game was one of the best of the season, being even and hard fought. Neither side was able to score during the first period, but in the second, Trinity got two safties, and during the last period, a touch down. The touch down was questioned by Norwich as being the result of an incompleted forward pass which was allowed to be called completed. During this period, Norwich succeded in getting the ball on Trinity's fifteen yard line but lost it on downs.

The Vermont and Middlebury Games

The week after the Trinity game was one of the most strenuous put in by the squad during the season. This was in anticipation of the Vermont game the following week. The men were in fine condition for the game and deserve all the credit that they received when the struggle was over and Norwich had won 17 to 0.

From the very start Norwich had the boys from Burlington guessing and before they realized that the game had started, Norwich had scored her first touch down. The ball was kicked off to Vermont, who were forced to punt after being held for downs. Norwich tried a place kick from the twenty yard line but it went wide. Vermont then attempted to make an onside kick, but Carpenter broke through and blocked it, recovering the ball and going across the line for the second touch down. Vermont kicked off to Norwich, and the period ended with the ball in Vermont's territory.

During the second period after an exchange of punts, Norwich intercepted a forward pass, and after a few plays, Kelley went around right end for a touch down. No more scoring was done during the game but several spectacular plays were pulled off. During the third period, Captain Daley of the Vermont team intercepted one of the Norwich's forward passes and was downed on the Norwich four yard line by Underhill, after a most sensational run. With three downs in which to make four yards, the Vermont boys were sure of a touch down, but they were doomed to disappointment, as the Norwich line threw back each play.

Saturday, November 12th, Norwich played its last game of the season with Middlebury, and defeated them 29 to 5. The game was played on a muddy field and fast play was impossible.

After the game the team went to Burlington and broke training at Dorn's. Impromtu speeches were made, and S. C. Cannon, '12, was elected captain for next year. Cannon played a steady and hard game all season.

Much credit for the successful season is due to Coach Potter, who is an ex-'07 man. It is hoped that Mr. Potter will return and coach again next season.

In closing, we wish to extend to the Seniors, who are leaving us this year, our hearty thanks for the hard work which they put in on the football field to make the team what it was. With the loss of Captain Smith, Manager Starr, Burhoe and Carpenter, we have a wide gap to fill.

Sophomores 53, Freshmen 0.

The annual Sophomore-Freshmen game was played November 16th and it was a great day for the Sophomores. They won by the largest score ever recorded in this annual battle. The usual amount of interest was created before the contest, although most everyone felt that the Sophs. would win. The freshmen were coached by Carpenter and Colburn, and their coaching was apparent by the showing of the team.

The day was cool, a strong breeze blowing from the west, but presented good football weather. The game was hard fought throughout, and was exceptionally clean, very few penalties being inflicted. The Sophs scored in the first minute of play on a blocked kick which Lee, F. X. gathered in, and ran 40 yards for a touchdown. This was only the first one, the other points coming at frequent intervals, the Freshmen being unable to stop the assults of their heavier and experienced opponents. Most of the Sophomore's gains were made on their right side of the line; Burwell making good runs in the open field.

In the last few minutes of play, Thompson kicked a pretty goal from the 30 yard line, against the strong wind. The Freshmen were on the defensive most of the time; Collins in the first half made two good gains of 20 yards. In the second half, they were unable to gain any ground. Weed, Gardner and Kimball played well for the "Rooks."

The line-up was as follows:

Marble, Miller, Lee, J. P., left end		right end, Williams
Butler, left tackle		right tackle, Kimball
Richmond, Andrews, Tilton, left guard		right guard, Partrick
Burch,	center	Barnes
Alvord, right guard		left guard, Slade, Beebe
VerWiebe, right tackle		left tackle, Duke, Yarrington, Weed
Lee, F. X., Holland, right end		left end, Gardner, Boulia, Patterson
Thompson	quarter back	Cronin
Burwell, left half back		right half back, Collins, H. L.
Taft, right half back		left half back, Washburn
Underhill	full back	Weed, Yarrington

Senior History

Colors: Mandarin Orange and Black.

M. B. BADGER, President — H. J. M. SMITH, Vice President
N. W. BEATTIE, Secretary — G. C. DAY, Treasurer.

Many changes have occurred at Norwich since the arrival of the men of 1911 on that rainy day, September third, Nineteen-seven.

We have seen the number of buildings as well as the number of professors increased. Cavalry has become an established part of our service. Athletics have reached their highest point. The hill has become a level campus and we are the last class to have experienced the former terraine between buildings, of hollows, bumps, and huge bowlders. A new commandant has taken the place of the old and the Military Department has seen fit to even add an assistant to the Commandant. Last but not least our college has been steadily gaining prestige among other colleges—partly due to athletics and partly to fraternities.

At present we have four fraternities—two national, two locals, and a Commons Club.

As usual our class has dwindled, until today we stand but thirty-one strong out of an entrance of seventy-two men. Our college is stronger in numbers than it was four years ago and above all the men are better prepared. Entrance examinations are stiffer and because of this, men are now at Norwich who are more competent to finish their course than has formerly been the case.

Electrical Engineering has been added as a course and has proven to be a decided success. Each year has found more men following this line of study.

Life has not, however, been one continual grind. We are not all wise men, nevertheless we follow the old adage, "A little nonsense now and then is relished by the wisest men." As sophomores we lead the class of 1912 a merry chase, until a crimp was put upon our exuberant spirits and some of us enjoyed the taste of tours and confinement.

Little has been said of our prowess in Class Athletics, perhaps the less said the better. As athletes we were weak, but as orators—ah, there was our strong halo!

We did win the interclass debate and we acknowledge that our worthy opponents were splendid debaters, gifted with flowery language.

Summer school brought a still closer bond of friendship to each man, for in that place the military is set aside and all are on an equal footing. The Senior "Party", as usual was held and good spirits prevailed among all.

Now, as the year is drawing to a close, we are sad—some of us because our diplomas are still "on the fence"; others because we must leave one another; but

I am ashamed to say most are sad because Commencement means the end of a life of abandonment and pleasures supported by paternal pocket books.

Later on we will appreciate the fact that these four years have been practically the happiest of our lives and we will look back upon our Alma Mater, with the same love and respect, which we have for our parents and be proud to say we are "Sons of Old Norwich".

JUNIOR
Schwenger 1910

Junior History

Colors: Purple and Gold.

W. F. ADAMS, President — J. E. MILES, Vice President

N. JACOBS, Secretary — L. R. WITT, Treasurer

The old town of Northfield is stirred with excitement. Crowds are rapidly passing through the streets and entering the great moving picture theatre over the Central Fire Station. The first show is a big success and again the house is rapidly filled. Suddenly from up the street is heard a rumble and then into the building march a crowd of students, with a number of captives who are destined to lead the world in big enterprises. They are the first menbers of the now famous class of 1912. After entertaining the large audience with their talented voices—especially great were the encores received by the Jacobs Bro. and after a little impromtu talk by Captain Chapman in which members of the present Senior Class were strongly represented, the first event, in which the 1912 crew as a class had entered, was finished.

The first few weeks of our Norwich Life were monotonous. We saw very little of ourselves and a great deal of others. In the early days we were not allowed to have any spending money as we might be too careless with it.

We were thunderstruck at the kindness of the upper-classmen and we shall always be under obligations for the happy moments we spent with them.

The annual football game with the Sophomores increased our happiness, by being able to defeat them by a score of 11 to 6.

The first winter of our college course went slowly. Most of us had not then acquired the "toosing" habit, some of us haven't yet (?), and still others were to young and bashful to meet the maidens of Northfield. Most of our time was spent in D Company's passage consulting the oracle "Found Rand" to learn what our promotions would be. "Mother Ray" especially was there most of the time, when not studying or bucking.

The Freshman Dance was a grand success and showed our friends just what we could do.

The spring brought color to our frost bitten countenances and by the time of the baseball game between the Sophomores and Freshmen we were happy.

Our usual success followed and we won by the big margin 10 to 3. Commencement finally came and was a delight to all. We enjoyed the feeling that we had passed through the most trying days at Norwich and had reached what seemed the highest pinnacle—the renowned state of a Sophomore.

Perhaps a little notice should be given to our friend, Mechanics. In fact

from the beginning we showed that we were born civil engineers and no doubt at the end we proved we did (????). Oh you makeups! To change the customs at Norwich, as we all like to do, we gave a Sophomore Class Banquet which was the crowning point of our second year.

The second commencement left us with promotions which some deserved the year before and others didn't get a look in.

Ah! The Junior Year is here at last and what a glorious good time it means. We are upper classmen and know the ropes except a few, for instance when a man uses more priveleges than were due all wear that happy smile. Why? Because they have been up here to Junior Summer School and are now well broken in.

We were no back number at our Junior Prom. Oh, no. Right there even on the punch.

In bringing this history of minor details to a close, the writer would like to mention a few facts concerning which he has made close observations. Each man has done his individual part. The fame the class has obtained does not rightly belong to a few but is divided equally among the members. We feel sure that when the Commencement of 1912 draws to a close, there will be regrets in the hearts of not only ourselves but in the faculty and all those who have come in contact with the class of Nineteen Hundred and Twelve.

Sophomore History.

Colors: Yale Blue and White.

R. H. UNDERHILL, President — H. S. BURWELL, Vice President
C. F. MURRAY, Secretary — H. B. SMITH, Treasurer

The Editor of the War Whoop eased into my room the other day and asked me to write the history of the Sophomore Class. Imagine that. He might just as well have asked me to write the Koran on a postal card as to condense the story of 1913 on one page. My heart fails me as I take my pen in hand for it is an important job to give to a mut like me. But in the words of immortal Bill, "On with the dance."

When Norwich opened her portals to the class of 1913 we numbered sixty strong. Since then various events have combined to reduce that number to thirty eight, our present quota. Some found the military a little too strenuous, while others had the same trouble with the academic.

The first part of our rook year was spent in absorbing divers kinds of knowledge. On the hike we discovered how to clean dishes with sand and that a dollar in cash represented simply ten set ups to the upper-class men.

Presently, however, we began to impart a little of our surplus information. "Bonehead", "Rods", and others took orderly from the upper-class bucks, time after time and seemed to show no embarrassment whatever about it. The unanimous verdict by all was that we were the freshest bunch of rooks ever seen on the hill. Perhaps we were, but dearest Alcis, we got there just the same.

In athletic contests for the first year we split even. The football game we lost by a paltry 3 to 0, due to various causes. Baseball? I think the score was 8 to 1. "Plug", "Piker", and the rest of the bunch went after "Checkers" that day and kinda evened things up with 1912.

On August 23rd, 1910 about twenty five of our worthies assembled in Dodge Hall. For two weeks, "Pat and his corps of Seniors," initiated us into the mysteries of the levels, compasses, chains, and transits. Our spare time we spent in thinking up various welcomes for the incoming rooks.

September 6th marked the opening of our Sophomore year at Norwich. What didn't we do to that aggregation of fresh young things who called themselves, "The class of 1914." No one can remember everything, not even the Freshmen. Suffice to say that never have we seen a more obsequious and obedient bunch of rookies than they were after a week of our instructions.

Nothing of great interest happened during the Fall-term. Most of us weathered the hike and enjoyed it more than we did as Freshmen. Incidently our football team defeated the rooks 53 to 0. We had a hard time selecting a team that was not all varsity men. "Eu passant," it might be remarked that 1913 is sort of there in football. Where would the varsity be without "Undie, Mike, Circ, Joe Lee," and other thirteeners.

At the beginning of the winter term we made the acquaintance of "Dad" Winslow, Mechanics and Triweekly tests, at one and the same time. The above combination can finish anybody or anything, so I am going to let it conclude my little spiel while the joyful, happy go lucky, class of 1913 goes on making history.

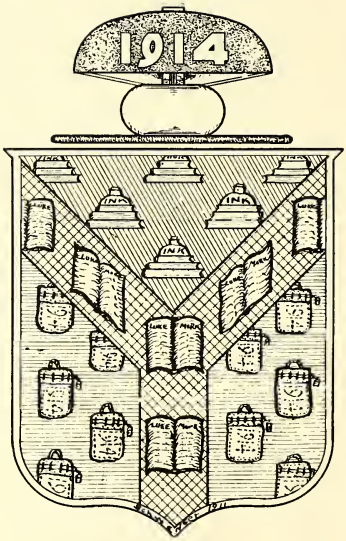
FRESHMAN
1914
Schwenger 1911



1914

Freshman History.

Colors: Dartmouth Green and White.

H. L. PUTNAM, President — C. I. SMALLMAN, Vice-President

L. P. LAWTON, Secretary — A. B. CALEF, Treasurer

"Hands out of your pockets, rook!", "Wipe off that smile." Such were the salutations that greeted us, as our noble class entered into the strenuous life of Norwich University.

Strenuous is no word to express the speed with which we learned the very important things that a "rook" must know. The class in poetry, by "Swede" and "Seaweed" suprised us, but the solo and lullabys sung by "Lucy" had'em all beaten to a frazzle.

Hardly a day passed but some notorious crime was committed, which could only be atoned for, thru the mysterious channels of "Summary Court," usually held on the troop passage, room sixty eight. "Judge H-----f," was stern and aided by that well known jury, "Rosy" and "Mike", this trio usually dug up enough hot air to make us bite and dig for the "smokes."

And then came the hike with all its attractions and pleasures. There, in order to guard the camp, we stood amid the dark blanket of night (not an " O. D. blanket") and all alone, watched. Perhaps we trembled when we called out in a strong masculine (?) voice, "Who's there?," and instead of the expected answer "Friends," received a wallop on the head and were told to beat it Kid. But "them" were the days and we will always take great pleasure in future years in relating of that last day's march.

After the hike, hazing was cut out, and all our hopes and fears were centered on the class football team. That developed into fears however, for after the battle we found ourselves buried in a cyclone cellar fifty three feet below sod. But it wasn't long before we slipped one over on the "Sophs," for at Reveille a few mornings after instead of a '13, a bold '14 stood on yonder pinnacle and stared each man in the eye. All hail '14.

In academic we have the usual sharkes. In fact, if wisdom may be measured by names, it is here then that we shine, for according to the laws of 59 7-8, if "Sparhawk" had been "Muchmore," there would have been "Sufficient" "Smallman" to make a "Sleeper" and then some.

And here we must say something about that "Rook Quartette." "Kill that cat" and "Hang that noise out the window" were its favorite selections.

Firmly believing that every knock is a boast, we shall continue to lie low until the arrival of the next years "Rooks." Then we shall take the official hammer and do a little tapping. And so with malice towards none but rather a good will and friendship for everybody, we shall try to uphold the college spirit and loudly acclaim that "Old N. U. Men" are jolly good fellows. "Auf wieder sehen"

CLUB

"THE CHEMISTRY CLUB"

SEPT. 30, 1907---JAN. 13, 1911

"REQUIESCAT IN PACE"

German Club

Through the efforts of Prof. Spear, a small German Club was organized at the beginning of the fall term. Only the men taking second year German were eligible. The object of this club was to learn more of Germany, of the customs, of the people, and their language. Sergt. Maj. C. E. VonNyvenheim was invited to become a member and his acceptance was appreciated by all.

The meetings were held, once every two weeks, either at Prof. Spear's house or in Carnegie Hall. The first part of each meeting was devoted to business as might come up. Later conversation and story telling was carried on in German. Light refreshments were enjoyed by all before the meeting adjourned. The present officers and members are:

Professor Spear.

President, S. W. Marble.

Vice-President, G. E. Bailey.

Secretary, O. A. Tilton.

Treasurer, W. H. Irish.

Entertaining Committee,

F. X. Lee.

W. J. Cronin.

F. L. Lovett.

J. T. Whitney.

Norwich University Catalogue

Northfield, Vermont.

(Not Published by the University.)

Nov. 1st.	School opens at Retreat.-Tuesday.
Nov. 17th-30th.	Thanksgiving Recess.
Dec. 16th-20th.	Examinations for Profs. by the President.
Dec. 21st.	Christmas Recess begins at 12.01 A. M. Wednesday.
Jan. 28th.	School opens at Retreat. (Arrival of midnight train).
Feb. 22nd.	Washington's Birthday. Wednesday.
Feb. 24th-28th.	Closed on account of cold weather.
Mar. 1st-4th.	Examinations for Profs. behind in work.
Mar. 5th.	Spring recess begins at Reveille. 11 A. M. Saturday.
Mar. 18th.	School opens at Retreat. 11 P. M. Saturday.
Apr. 1st.	Final examinations for Profs. Saturday.
Apr. 3rd.	Baccalaureate Address.
Apr. 4th-5th.	Commencement. Year ends at Retreat.
Apr. 6th.	Entrance examinations for new Profs.
Apr. 10th.	Alumni Day. Summer Vacation 6 1-2 months.
	Summer School Seniors, April 6th-7th.
	Summer School Juniors, October 30th-31st.
	Summer School Sophomores, October 31st.

ADMISSION.

Only by certificate from all schools which are in existence. Masssachusetts and Connecticut men enter at front door. Vermont and New Hampshire men at the back door. All the rest by any method whatsoever of getting in.

All candidates must have a poor set up and large feet.

Medals are given to Profs. who fail in all exams.

Those most distinguished in Military, will get what they deserve, Corporals.

A large fee of twenty-three cents must be paid by all students for Lab. breakage and no more.

All candidates must be personally known by Prof. Flint.

CADET ORGANIZATIONS.

The Cadet Corps is organized into various units, for instruction in Dancing, Cooking, and Playing Cards.

EQUIPMENT.

The Corps is very well equipped with needles, thread, chafing dishes, playing cards and very few books.

MEDICAL ATTENTION.

Which looks out for the welfare of Cadets who want a rest. One kind of pills, for all cases.

BUILDINGS.

The University has nine large and roomy barracks. Six large, twelve story buildings for recitations. Only four; three story buildings for laboratory work. Twenty eight story, 6" x 8' Administration buildings, with large vaults for Student's Deposits. One very handsome Library. One large Museum with a tropics room.

Only two Gyms. with swimming tank, track and drill halls. One large tower for studying the stars.

LOCATION.

The University is situated on a mountain overlooking everything in the city of Northfield, Vermont, six miles north of the north Pole. Perennial Springs supply the University except 3rd floor, Alumni Hall. Train accommodations are fine, C. V. R. R., never more than twelve hours late. Electrics to the North only 5 cents a ride.

ROOMS.

Students are expected to live in the barracks, not at some fair ladies' house, but all who do, lose a valuable training in social life.

Beds, mattresses, brooms, pails, etc. Furnished by Crow, Deane! 12 Keys. You give fifty cents to Graves for a key and are supposed to lose it; never return the same.

SCHOLARSHIPS.

There are many for men in poor physical condition. There are a few thousand for those who expect to stay here a life time. There are a few hundred for those taking ministry and sewing.

PUBLICATIONS.

The Reveille. Is a book devoted to doing the Cadets and helping the Editors.

The Record. Another graft. It pays to advertise.

The War Whoop. An Annual publication, and that is enough.

People don't get over the bumps when out comes another one.

GENERAL INFORMATION.

The Asylum is near Waterbury, for those who study too much and are so affected. The Academic year is 36 weeks, more or less,-usually much more,-and is divided into three terms. One in December, when most Freshmen leave; another in March, when Sophomores strike Mechanics and leave; and the last in April, when Seniors and Juniors are dropped.

Bills should be paid after Prexy speaks about it in chapel or never.

Tuition is from $96. $101. yearly, plus lab. fees which is $20. monthly, and

shoe leather which is daily.

For further information or trouble, such as flunk notices, term bills, and clothing. Address.

Ass't. Treas. (Office Hours: 11.49-12 P. M.)

Somewhere on the hill.

RELIGIOUS FEATURES.

Chapel exercises are held every morning and we sing, "Home Sweet Home" etc.

On Sunday morning each student is required to attend church, or get out of sight of the O. D.

There are seven churches, the Episcopal gets out the earliest and the students are advised to go there.

A branch of the Y. M. C. A. affords opportunity for young men to be led.

JANITORS.

McCarthy and Pal. Very congenial personages.

SOCIETIES AND CLUBS.

T-A-N-K.

Meets 5 times a day at Room (?).

F. Dowst is running for President 1911.

I-O-U.

President, E. J. Donahue.

Treasurer, J. B. Buck.

He is a dead one.

This society holds meetings every time they are short. New men need to apply early for admission.

Musical Club.

These consist of members of the student body who murder every masterpiece that is written. Four new cats and two dogs were added to join in the choruses.

Fussers Club.

Which was organized by 1910 class.

The Aim is to learn to talk in the dark and be heard by only one person. Turning out of lights without disturbing young ladies or waking father. Some of the most prominent members are Bradley, Hovey, Cram. Three new members are showing up well are F. Pal, Hemenway and Cannon.

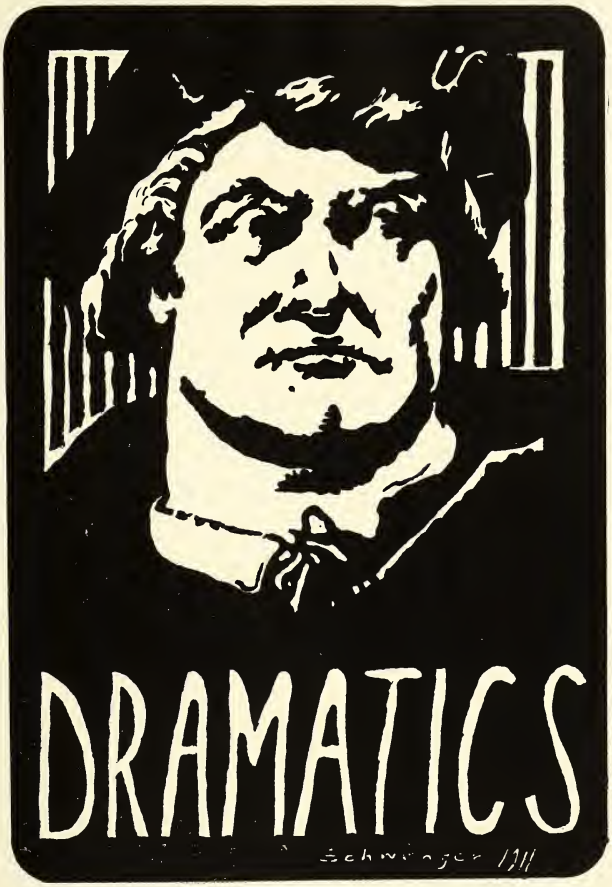
H-A-D-E-S.

Meets at the Y. M. C. A. rooms. This is for all Goody-boys such as J. Buck Colburn, Hooper and Mother (Ray).

Their motive is Hot Air.

Water is prohibited in this society by order of J. Buck, President.

Trips to Barre and Burlington are taken by this order often for the benefit of the members.



DRAMATICS
Schwinger 1911

DR. H. A. WHITNEY
Interlocutor

F. H. COLBURN
Stage Manager

The Management

A. P. LEETE
Musical Director

R. W. NEWCOMB
Leaedr of Orchestra

Norwich Minstrels

February 15th and 16th, 1911

The second annual performance of the Norwich University Minstrels was given at the Armory in Northfield, Wednesday and Thursday evenings. The performance was a much larger production than that of last year.

The stage had to be enlarged to accommodate the chorus, which consisted of sixty voices. For a number of weeks a hard practice was kept up, and the opening night was greeted with about five hundred in the audience.

Throughout, the whole preparation had a supervising eye. Mrs. Whitney took absolute charge of the musical end and when it is known that she arranged the pieces for the several instruments of the orchestra, one can begin to realize her task. Her efforts were untiring and to her much of the success is due. Sergeant Leete was an able musical director.

The curtain rose promptly at eight o'clock with neatly arranged opening chorus embracing selections from,

"I Likes You, Honey,"
"Liza,"
"That Moonlight Glide,"
"The Gypsy" (Anvil Chorus,)
"Cigarette Song,"
"Everybody's Good to Me,"
"Come Josephine in My Flying Machine,"
"Day Dreams,"
"Story of the Flag,"
"Goodbye My Soldier Boy,"

The entire chorus marched onto the stage dressed in white duck trousers and the N. U. dress blouse, making in general a snappy assembly. The end men were very natty in their gay checkered suits and stove pipe hats. Dr. Whitney as interlocutor wore a full white uniform, making a decided contrast and adding that refined air to the whole setting.

The Circle consisted of the following cadets,

1st Circle—Captain Richmond, Sabin; Lieutenant Burhoe; Sergent Noel, Corporal Thompson, Schwenger; Private Tilton, Kelly, Ver Wiebe, Putnam, Spencer Muchemore, Lawton, Slade and Kimball.

2nd Circle—Lieutenant Day; Sergts. Major Gordon; Sergts. Miles, Adams, Corporal Rich, Hooper, Miller; Private Hayes, Butler, Brice, Marble Mathewson, Partrick, Spencer, Buckingham, Bayley, Mahard, Munsell, Boulia, Hovey, Bradley, Smallman, White, Beebe and Phillips.

Murray and Shaw, the first end men introduced, started the ball rolling in the fun line. After many jokes at the expense of the townspeople, each sang a

song. The second set of ends, Leete and Burns, were up to the standard set by their predecessors and were a laugh from the start to finish. Then came the climax when Colburn and Heathfield entered. During the jovial talks of the end men, Cadet Spencer and Kelly rendered selections.

MUSICAL PROGRAM
Wednesday, Feb. 15, 1911

Murray. "Sugar Moon."
Burns. "Travel, Travel, Little Star."
Spencer. "Hush Me to Dreams," with Violin and Cello Obligato.
Shaw. "Good Bye, Christina Swanson."
Leete. "Play that Barber Shop Chord."
Kelley. "Star of my Dreams, Shine On."
Heathfield. "Wise Old Indian."
Colburn. "You're Gwine to git Somethin' What You Don't Expect."
Leete. (Southern Croon.)—"Little Puff of Smoke, Goodnight."

Thursday, February 16, 1911

Murray. "I'm an Honorary Member of the Patsy Club."
Burns. "I've Got Your Number."
Spencer. "Hush me to Dreams," with Violin and Cello Obligation.
Shaw. "I'm going When the Weather Suits My Clothes."
Leete. "Fussy Rag."
Kelley. "Star of My Dreams, Shine On,"
Heathfield. "Casey Jones."
Colburn. "Who are You With To-night?"
Leete. (Southern Coon)—"Little Puff of Smoke, Goodnight."

Specialties

1. Magnus and Murray, Clog Dancing.
2. Fisher, Banjo Solo,—Medley, "Old Southern Melodies."

Intermission of 5 minutes

3. Burlesque Boxing Match—
   Principals:
   Phila. Jack, the sleepy boy, Clarence Murray;
   Mr. James Jefferson, a renowned pugilist, Colburn;
   Referee, Rich; Timekeeper, Butler; Seconds, Thompson and Kelley.
4. "Hats, Hats, Hats," from the Bachelor Belles."
   Baritone Soloist, A. P. Leete.

Intermission of 5 minutes.

5. Colburn and Heathfield as two eccentric German comedians in the Light House Sketch.
6. W. A. Heathfield will give an impersonation of a well known and popular Norwich character.

7. Grand Finale, Entire Chorus.
Solo, "Good Bye My Solider Boy," A. L. Kelley.
Curtain.

Under the able leadership of Conductor Newcomb and Mrs. Whitney, the orchestra filled in the Intermissions and made the show run along smoothly.

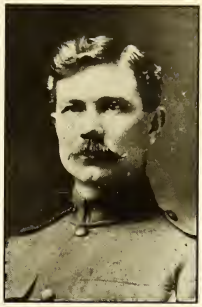
The orchestra consisted of,

1 st Violin, F. E. Rabidou,
2 nd Violin, L. P. Bayley,
Cornet, Cadet Duham,
Viola, Cadet J. H. Buck,
Flutes, H. Shaw and W. T. Sparhawk,
Clarinet, W. Garland,
Bass, M. Sanborn,
Trombone, Cadet Cram.
French Horn, Cadet Lowell,
Traps, Cadet Magnus,

It would be a difficult task to pick out any one individual player who was essential to the performance. The mass work was most creditable and all honor can be taken by each man, for everyone was necessary for the good of the whole and it is hoped that this spirit will still remain in future enterprises.

On Saturday Night, the show was given in the Barre Opera House, Barre, Vt. The programme carrid out was similar in character as the one given the first evening in Northfield. To the specialties were added the Aeroplane Sketch by Colburn and Heathfield. The audience were very well pleased with this performance and applauded the act continually.

After the West Point Game.



Sergeant J. C. Cody, Infantry, U. S. A.

It would be far from prudent to close this little volume without a mention of our friend and able instructor, Sergeant Cody.

During the period of two years, which he has been with us, he has always been ready and willing with advise or a helping hand. On the hike he was ever willing to put us out of the snarls of guard duty or any other kinds of meshes we found ourselves entangled in.

His face is always a familiar sight on the athletic field and when it came to the true "Norwich" man, he was one of the foremost.

To him is owed a part of the highest efficiency of the Cadet Corps, for he is a soldier of the best type, and the best ideal of manhood for a young man to look up to.

Sergeant Cody enlisted in the Regular Army fourteen years ago, and served in the Philippines for six years. He was detailed as instructor of the Vermont National Guard in the fall of 1909.

Polo at Norwich.

With the arrival of Captain Tompkins as military instructor at Norwich, a new department of athletics was immediately established. Polo, the most popular sport in the Army, naturally found immediate popularity at N. U. Every day members of the Troops can be seen plugging away at the wooden balls, while the horses go plunging and rearing at the unusual conduct of the riders. The horses themselves seem to like the game and an almost human intelligence is found among them. In fact a great many of the horses are like old veterans.

It is hoped in the near future to be able to arrange games with the officers of Fort Ethan Allen, each visiting team to use the opponents horses. If this is done it ought to strengthen the interest shown in Polo here at N. U. and would bind the ties of frendship already shown by the officers of Fort Ethan Allen for the cadets of this institution.

Norwich is probably one of the first colleges in this country to take up Polo as a form of athletics. Therefore it is up to every cadet to do his part, to make it a success here and thereby push N. U. to the front in the eyes of the public.

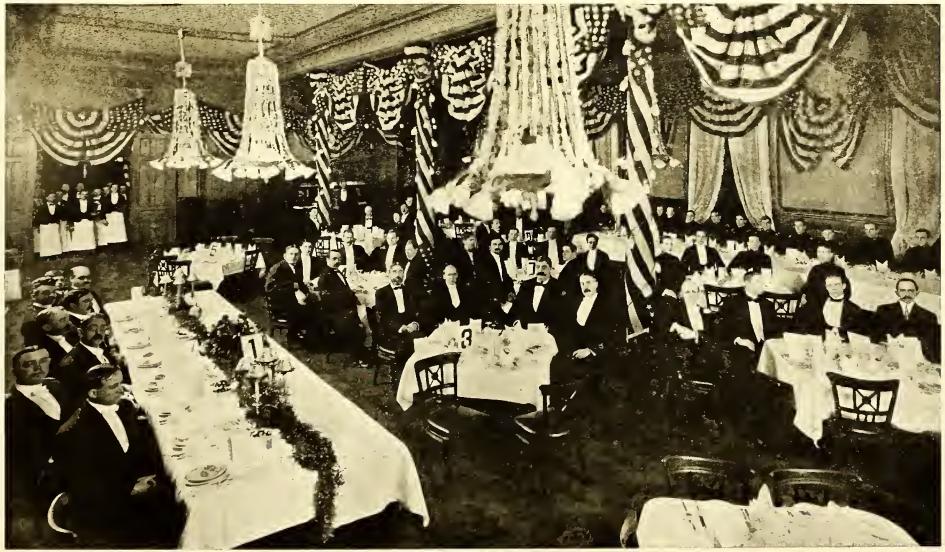
New York Banquet

The New York Alumni Association held its annual banquet March 24th, at the Murray Hill Hotel. The attendance was unusually large. Among the guests of honor was General Fred. D. Grant, whose regard for General Dodge has caused him to have a keen interest in Norwich and her welfare. Another guest of honor was Mr. Samuel Beard, author and artist, who spoke to the instruction and entertainment of all, upon the Boy Scout organization, its origin and motives. Mr. William Barber, "Scout Leader," spoke briefly upon some details of the work and presented this through illustration, by a squad of attractive young Scouts present as guests.

The speakers from the College were President Spooner, from the executive; Dean Roberts, from the academic view point; Captain Tompkins, from the Military and Cadet Sergeant Major Gordon, from the athletic. President Adams filled his position as toastmaster in a very able and plaesing manner. The student guests were chosen from the four classes, three from each representing the highest academic, military and athletic ability.

Those from Northfield who attended, were President C. H. Spooner, Dean H. R. Roberts, Captain Frank Tompkins, U.S.A., Dr. Whitney from the Faculty. Those from the corps were Captain D. H. B. Starr, '11; Captain M. B. Badger, '11; Com. Sergt. H. A. Howe, '11; Sergt. Major. H. N. Gordon, '11; 1st. Sergt. J. E. Miles, '12; Sergt. H. C. Kendall, '12; Corporal, A. F. Holland, '13; Corporal R. H. Underhill, '13; Corporal, C. H. Alvord, '13; Private S. Cheney '14; Private E. C. Beebe, '14; Private, H. L. Collins, '14; also the University quartette consisting of Captain Sabin, Color Sergt. Leete, Sergt. Noel, and Private Putnam.

Among the distinguished guests of New York present were Major General Frederick D. Grant, U. S. A., D. C. Beard, Charles E. Bush, '63, W. R. Mead, '64 Edward D. Adams, '64, Edward McPeters, '80, also among the later graduates were J. M. Holland, Charles H. Nichols, R. L. Irish, F. G. Austin, James W. Cook, H. R. Dillingham, and B. P. Hovey.



Boston Banquet

The twenty-third annual meeting and banquet of the Norwich University Alumni Association of Boston, held at the Hotel Westminster, was a very enjoyable affair. The meeting and banquet was presided over by Nelson L. Sheldon as president and toastmaster. Col. Josiah H. Benton, of Boston, as principal speaker, was very interesting and enthusiastic. He spoke of the advantages of the military training, of the effect it had upon the men during their college life and after graduation, and expressing his belief that it was of great value in forming character.

Among the other speakers were Captain Tompkins who spoke of the military efficiency of the cadet and the possibility of more horses and better stables to be furnished by the Government; President Spooner who spoke on the ability and the character of the graduates; Captain H. C. Keene, U. S. A. retired, Commandant, Norwich University, 1892—'95., Charles N. Bradley, and Nelson L. Sheldon. At the business meeting before the banquet the following officers were chosen for the ensuing year: President, Nelson L. Sheldon; Secretary and Treasurer, E. W. Gaynor; Executive President, C. F. H. Clark, and J. A. Holmes.

Among those present were, George Chapin, '04, V. J. Brennen, Jr. '04, A. G. Baker, '03, K. R. B. Flint,'03, G. W. Lentall, ex-'11, G. G. Foster, '11, G. G. Russell, '04, E. C. White, '08, Carleton Scott, '09, F. S. Drown, '03, Timothy Holland, '02, Col. G. O. Tyler, '57, R. D. Potter, '97, G. E. Carpenter, '11, E. Smallman, '08, Howard Fall, '09, F. V. Hemenway, '12, N. C. Hooper, '12, E. G Ballard, ex-'12, L. N. Burhoe, '11, Dewitt C. Webb, '92, C. W. Pierce, '92, W. A. Pierce, '94, W. E. Hassam, '87, C. W. Nichols, '86, F. H. Clark, '89, H. C. Holden, '94. C. E. Hutton, '08, G. E. Ames, Jr., '09, E. D. Perry, '04, Dr. B. W. Gleason, '92, C. F. Parker, '90, H. L. Smith, '04, C. H. Balion, R. C. Herd, '64.

Vermont Banquet

The Vermont Alumni association of Norwich University met at the Waterbury Inn, Waterbry, Tuesday evening, the 18th. The annual business meeting was called to order by President L. B. Johnson of Randolph. After the usual routine business, the following officers were elected for the ensuing year: President, Luther B. Johnson of Randolph; 1st Vice-President, C. N. Barber, Jr., of Barre; 2nd Vice-President, Phil S. Howes of Montpelier; 3rd Vice President, Craig O. Burt, of Stowe; Secretary, C. S. Carleton, of Northfield; Treasurer, Irving C. Ellis, of Northfield.

After the business meeting the members retired to the dining hall where an excellent banquet was served. President Johnson opened the way for a pleasant and profitable evening in his happy manner of speech and hearty welcome to the members and visitors. Mr. C. K. Mellen of the class of '84, was the first speaker He called particular attention to the advantages of a life at Norwich. The other responces were Progress, President Spooner; Military at Norwich, Captain Frank Tompkins, U. S. A., Electric Engineering at Norwich, Prof. F. E. Austin.

There were short speeches by Woodruff, '91, Steele, '82, and Plumley, '92. W. J. Boyce, father of Boyce, '09, responded handsomely to a call from the toastmaster. Those present included President Spooner, Prof. Flint, Guy G. Russell, Captain Tompkins, Prof. Roberts, Prof. E. A. Shaw, Prof, Winslow, W. A. Ellis, Phil S. Howes, H. G. Woodruff, C. K. Mellen, Dr. J. H. Judkins, H. C. Cady, Chas. A. Plumley, Craig O. Burt, L. B. Johnson, Prof. C. S. Carleton, Maj. Bayley, Prof. W. A. Shaw, Maj. F. B. Thomas, Capt. Chas. Wallace, W. J. Boyce, J. T. Smith, Dr. F. E. Steele, Cadets Leete, Sabin, Putman, and Noel.

Honors

Graduate with honors:

Everett Collins,
Tyler Wesley Earle,
Paul Summer Emerson,
Lewis Underwood Kennedy,
Hermon Harrison Kinsman,
John Thurman Rich,
Kenneth Foster Stebbins,

Most Distinguished in Military Department:

Major Everett Collins,
Captain Kenneth F. Stebbins,
Captain Harold A. Ainley,
Captain Tyler W. Earle,
Captain and Adjutant Lewis U. Kennedy,
Captain Charles F. Campbell.

Winner of Senior Gold Medal:

Kenneth Foster Stebbins.

Winner of Thomas Medal:

Harold Tower Baker,

Winner of Shuttleworth Sword:

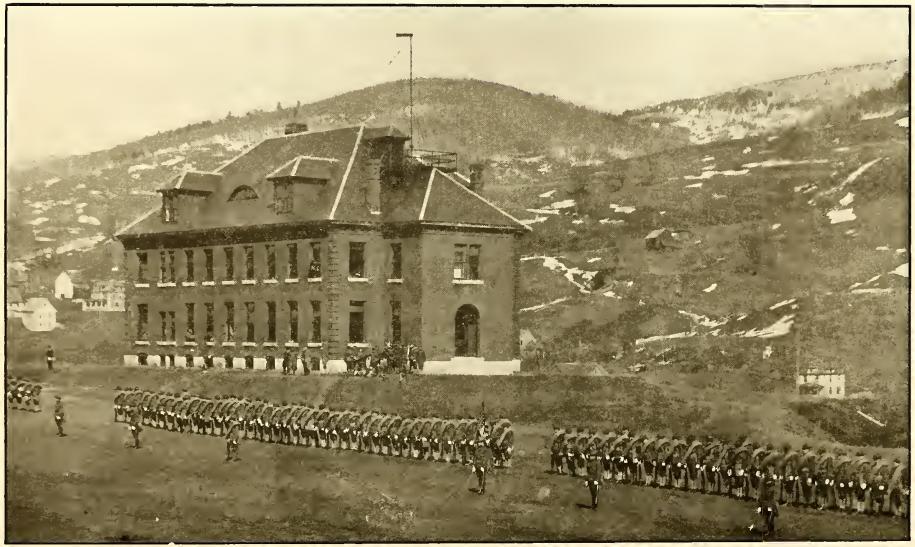
Neal Willard Richmond.

Winner of Sophomore Medals:

Academic Standing—Harold Tower Baker.
General Average—Harold Tower Baker.
Military Standing—Samuel Clark Cannon.

Winner of Freshman Medals:

Academic Standing—Edmund Pond Shaw.
General Average—Edmund Pond Shaw.
Military Standing—Irving Arquila Rich.



The Vermont National Guard Cavalry Inspection.

The first annual inspection of the Norwich Cavalry occured April 13th, the inspecting officer being Captain Boyd of the Tenth Cavalry, which is stationed at Fort Ethan Allen.

The order of events consisted of squadron review, followed by squadron drill, after which the two troops were inspected in heavy marching order. The latter included inspection of arms and field and arms equipment.

The squadron was then put through Butts Rifle and Physical to the music of the Cadet Band. After this Troop B was inspected mounted, going through the drills, including straight cavalry movements and monkey drill. An inspection of quarters closed the events of the day.

The inspector expressed himself as very well pleased with the appearance of the troops in general and especially with the excellent condition of the rifles, they being in much better order than any other rifles, inspected by him among the National Guard.

It is of interest to note the improvement there has been in the cavalry drill during the last year.

The Vermont National Guard Signal Corps Inspection.

On Tuesday, April 18th, Captain Wallace, U. S. Signal Corps, inspected Company A. Although the Company had only recently received the signal apparatus, yet they had become efficient in sending messages by the various methods used.

The order of events consisted, first of the inspection in heavy marching order after which packs were unslung and a few movements in company drill were executed. Following this was an inspection of rooms, where the packs were unrolled and the field equipment inspected.

Then came exhibition signal work, the company being divided into three sections; one for flag signalling, one Helograph squad and one for work with the field buzzers. Messages were sent with ease and rapidity. The buzzer squad had a wire laid from Alumni Hall to Jackman, with men at each place, also a station at Carnegie. In general the inspection was up to the high mark and successful.

Fort Ethan Allen, Vermont,
April 23rd, 1911.

The Adjutant General of the Army,
Washington, D. C.
(Through Military Channels.)

Sir:—

Having completed the inspection of the 1st Squadron, 1st Regiment of Cavalry Organized Militia of Vermont, (2 troops) I have the honor to submit the following:

1. I recommend that so long as there is a regular cavalry officer in charge of this squardon that he be required to make the annual inspection.

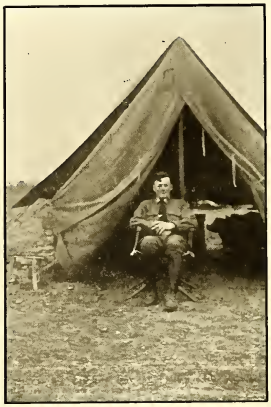
2. The members of this squadron are cadets of the Norwich University, are under daily training and discipline;the degree of efficiency as militiamen is so great that I cannot now make any recommendations tending toward their improvement. Their organization was changed January 1911 from a battery of field artillery to that of a squadron of two troops of cavalry.

Their equipment is on the way.

Very respectfully
C. F. Boyd,
Captain and Adjutant, 10th Cavalry.

Lieutenant Thayer at the Army Maneuvers, San Antonio, Texas.

1st Lieut. Guy E. Thayer, Signal Corps, V. N. G. Enlisted Company I, 1st Infantry, V. N. G., June 26th, 1907. Promoted to Sergeant, March 15th, 1909. Attended the National Guard Encampment at Burlington in the season of 1907 and 1909; at Pine Plains, N. Y., in the season of 1908 and 1910. Marksman 2 years, Sharpshooter 1 year, and Expert Rifleman 1 year. Company rifle team 2 seasons, 1908 and 1910. Entered Norwich Univ. in the fall of 1907, member of the class of 1911. Promoted to Corporal 1909, to Sergeant 1910, and to 1st Lieutenant Company A, V. N. G. Signal Corps 1910-11. Delegated by Captain Frank Tompkins to represent the Signal Corps of the Vermont National Guard at the Army Maneuvers at San Antonio, Texas, under direction of the War Dept.



for the instructions of the National Guard Officers at their encampment maneuvers.

It was my good fortune to be selected to represent the Signal Corps of the V. N. G. at the joint encampment maneuvers and field instruction of the regular army and militia at San Antonio, Texas.

I left Northfield on the afternoon train April 1st, 1911, for St. Albans, where I was to meet Captain Pell of Co. B, 1st Infantry, V. N. G.

We started from there at 8 P. M. and traveled by way of Montreal and Chicago on the Grand Trunk R. R. We traveled from Chicago by way of the Wabash R. R. and from St. Louis to San Antonio by way of the Missouri, Kansas and Texas R. R., making the trip of about twenty-two hundred miles in a little less than four days.

It snowed nearly all day Sunday and it seemed as if Northfield weather was bound to follow us; after leaving Chicago the weather cleared and as we came into Oklahoma the trees were all leaved out, roses in blossom and the contrast between this and the weather we just left, seemed very great. We left about a foot of snow in Northfield and the temperature through the middle of the day down there was around 90 or 100 at this time of year.

On arriving at San Antonio, Texas, a thriving city of about one hundred and fifty thousand inhabitants,one could not help but notice the easy going way of the people and the many little parks with their shade and palm trees scattered about the city gave the place an air of ease and comfort.

We reported at division headquarters at nine A. M. April 5th, CaptainPell was assigned to company I, 10th Infantry and I was assigned to company D, Signal Corps. There were many other National Guard officers from the different states who reported at the same time, each one being assigned to some Army Officer for instruction.

About the first question asked us was, "Are you going to take the typhoid dope?" which is compulsory for the regular Army but is optional for the National Guard Officers. Although twelve thousand men have been in camp over five weeks there has not been a case of typhoid. Recruits on reporting are given there first hyperdermic of the typhoid prophylactic, then at the end of ten days a second is given and ten days later the last one is given. This treatment according to German Scientists gives a person immunity from typhoid nearly seven years. If one has had typhoid it may make him feel a little sick, but a person who has never had typhoid will be able to attend his regular duty. Army Officers who have seen as high as 50 per cent of their command sick from typhoid are the ones who can realize best the value of the innoculation, it is also a business proposition for business men.

The water in camp is taken from artesian wells and very good, but the water out on the road is not as good, in some cases it is brought in tubs and put into cisterns, and the water from the streams which are not very numerous is usually muddy.

The sanitary conditions in camp are very good, crude oil and hay being burned in every place where flies might carry infection, lime is also used as a disinfectant. The soil is of an impervious nature and each kitchen has its open fire with a crude sort of firebox dug out and lined with coarse stones in which a fire is burned most of the time, the course refuse from the kitchen being put directly on the blaze, and the kitchen slops are poured on the hot stones.

The Division Bakery cooks all of the Bread used by the soldiers, the bread being made in tents and delivered about camp. The cooks are enlisted men and make bread of the best quality, the ten stoves used for this purpose have a capacity of nearly 12000 pounds of bread each day.

Mesquit and scrub oak which nearly cover all of the waste land are about the only wood available for fuel.

The daily camp routine begins with reveille at 6 A. M. then after breakfast stable duty and drill take up nearly all the morning, after dinner there's more drill; guard mounting by regiments is at 5 P. M. and retreat at 5 30 P. M. The evenings the men have to themselves.

Each outfit has its drills in close and extended order, and the cavalry drills for the most part with the provisional regiments of six and nine troops.

The three Brigades of the Division go out in turn on hikes which last from two to seven days; and this is the time the Signal Corps is of particular value as means of comunication between Divisions and Brigade Camps. One wireless section remaining in camp, while the other section goes with the head of the column. By this means the commander at Division Headquarters can direct the movements of the Brigade in the field from his tent and have his map spread before him. The wireless pack sets are put on pack mules. When communication is desired with another point of the command all the wireless section has to do is to fall out, set up its wireless instrument and call the home station. In this way I have seen communication established between stations twenty-five miles apart in seven minutes from the time the section dropped out of the marching column. The pack sets are efficient for distances not exceeding thirty miles and the power for these sets being produced by a small hand generator. They also have as part of their equipment a large wireless set which is mounted on a two wheel cart the power for this machine being made by gasoline engines attached to the

motor. With this instrument at Division Headquarters communication is easily carried on with Eagle Pass, also El Paso which is over one hundred and eighty miles distant. One advantage of the wireless lies in the fact that communication can be established and taken down very quickly and the march with the column can be resumed with a little loss of time.

However in many instances the wire outfit is more practicable and the wire can be laid with great rapidity. Even while the wire is being laid communication can be held between the man at the end of the wire and the man on the wire cart, although the cart is going as fast as the horses can run. In this way the movement of the reel carts can be directed by the person in command of the wire section, and he can also recieve reports from as many parts of the field as he has wires.

Improvements are being made all of the time so that the Signal Corps is proving istelf an indispensible branch of the Army. Let me cite an example of its durability. One morning the wireless pack set was put upon a new mule which got away from the man who was leading him, and the mule started down

through a regiment of mountain artillery making a path for himself wherever he wished to go. During his rampage the cinch band loosened and both wireless outfits went more than fifteen feet into the air and landed with a dull thud on the ground;as it was then time to open the station with the other section which was on the road with the Brigade the instruments were set up and with but very little adjustment, communication was established.

On these maneuvers by Brigades, advance guard duty was taken up and one night one of these movements lasted until after midnight.

Another problem was to find out whether a Brigade with all its wagon trains took up as much or more room space than had been figured out theoretically. This was worked out with surprisingly correct results.

Connected with the Division are two Wright Biplanes, which made successful flights when the weather permitted, the machines frequently remaining in the air for over an hour. There have been very few accidents and the Aeroplane will be one of the instruments of war in the future. The Parmalee Bros. have a Monoplane of French design which they are to try out soon.

The week of the sixteenth a flower festival was being held and arrangements were made for a Military Parade which was over four miles long and was the most pretentious since the Civil War.

One has to be constantly on the lookout for tarantulas and rattlesnakes. Especially is this true at bed time as I saw two large tarantulas that had been taken from soldiers' beds and a large number of rattlesnakes were killed about camp, the largest one having fourteen rattles.

Any National Guard Officer who attends the War Maneuvers with the idea of learning something by which he can improve his own command has the right idea and will learn much, for the Army Officers have had the experience and it is a pleasure to them to give all the instructions they can.

For my part I am of the opinion that no better type of a business man can be found than among the Officers of the United States Army.

The trip was very pleasant and enjoyable, as well as very instructive.

We started for home the night of the eighteenth and arrived in Northfield the twenty-second.

The War Whoop Grinds

Preamble

We the convicts of Norwich Penitentiary, in order to raise more perfect onions, establish beats (the summary court officer,) insure domestic orders, provide for (Prexy's) hedge fences, promote the Northfield Fair, and secure the means of escape for ourselves and our followers, do organize and build this book for the Norwich Penitentiary of Northfield.

A compliment to the 1910 FOOT-BALL TEAM from a friend down town.

Only once did Vermont come near scoring at all, and then Underhill was there with the goods like the Chimes of Trinity.

And wasn't CarpenterJohnny-on-the-Spot when that kick was blocked and he went over the line for that second touchdown.

Didn't Colburn use his bean throughout the game?

Burwell is just as good behind the line as he is at straightening out Fisher's benders in the springtime. Cannon showed them that you didn't have to weigh 200 to play center.

And what about Dan Starr, with his 195 pounds, and Alvord and Captain Smith? They certainly formed a stone wall, which stopped Vermont every time.

Those ends, Taft, Lee and Weed were down the field under every punt and they showed Vermont how to break up some of her own plays. Hemenway's name wasn't in the line up, but Vermont knew that he was around when he hit their line.

EVERYBODY THERE saw KELLEY.

But why go into details? It wasn't individual work that won the game. It was team work and jam up stuff at that.

Dont's

Don't buck the Military too hard, for you are liable to flunk subjects.

Don't stay late with your lady friends, for you are liable to get your privileges taken away.

Don't smoke during study hours, for the O. D. can smell smoke.

Don't shoot "snipes" into the corridor when a yellow uniform is around, for you are liable to hear about it.

Don't dust your gun with a blacking brush, for shoe blacking shows on white gloves.

A practical Method

Prof. Dix. (In Mining)—"How do you find the direction which a bore hole turns?"

Silence.

Voice in corner.—"Send Pound Rand down."

A Confidential Book Guide

An Affair of Dishonor, *by H. J. M. Smith.* The disappointment of the season. A book containing guard tours and police duty.

My Brothers' Keeper, *by N. Jacobs.* Tells how Mike lost and won.

The Theory of the Theatre, *by W. F. Adams.* Admirable essay of value to all theatre goers. Tells about the Pearl and Lyric.

The Fourth Dimension, *Simply explained by Charles Luther Whipple.*

What is wrong with the World? *by W. H. Bradley.* A book in which, after contradicting all other guessers, contradicts itself.

P ound Rand. His Life, and Works *by Pound.* A biography that contains everything but the breath of life.

The Useless Law, *by F. V. Hemenway.* In which the author makes you think he knows something about the English Language.

The Husband's Story, *by E. F. Dowst.* In which the American Woman gets a piece of the author's mind.

The Way Up, *by O. W. Ray.* A novel that admirers of Mr. Ray do well to leave unread.

Halfway House, *by Blanchard.* A story of to-day and a parable of to-morrow.

Why not be Human, *by N. C. Hooper.* Masterpiece or Life of the Author.

Poor John, *by J. E. Buck.* Stupid story.

The Other Fellow. *by H. L. Deane.* Tells how looks are deceiving.

Bone Head, *by L. R. Witt.* Uproariously stupid story.

Niagara Falls, *by H. J. Woodward.* Educational book on how it was made.

Forgot. *by F. C. McCarthy.* Notice Later.

Hitting the High Places, *by A. R. Cram.* Life under great difficulty.

Hash, *by M. J. Buck.* A story which makes a person hungry. Boarding house life.

Merry Wives of Northfield, *by S. C. Cannon.* Tell of social life of a Cadet at Norwich.

Where do you Live? *by F. H. Colburn.* Catchy jokes and catchy sayings.

Rebecca of Berlin, *by M. Jacobs.* Admirably adapted version of the well known story of a girl's life in N. H.

Nightmare, *by E.D. Hovey.* Tells of life on his Grandfather's Farm.

Getting a polish, *by W. A. Heathfield.* This story suggests the idea of something *laughable.*

The Life of a Horse, *by J. W. Slattery.* Enough said.

Hans the Flute Player, *by A. E. Taplin.* The Life of a boy in dear old Vermont.

The Evolution of Man, *by F. Paul.* Gives the life of a man, after careful study and research in India.

Checkers, *by E. H. Parkman.* A tragedy of a great ball player.

Life of Great Men, *by H. H. Reid.* Tells of the lives of such men as Cram, Miles and Scanlon.

One Sweet Dream, *by E. P. Therrio.* Gives an interesting sketch of a sweetheart.

Mother, *by W. D. Wallace.* Gives an account of a young person as old as his mother.

Baby Mine, *by F. S. Hoff.* Not as sentimental as the title would indicate. Of a Heroine that was never born.

He Came from Northfield, *by G. A. Hutchinson.* Tells how a town boy can make good.

Gamblers, *by W. W. Inglis.* A book of instructions on Bridge Whist.

Speach, *by C. F. Joslyn.* Tells how talking killed a rival and won a bridge.

Military Life, *by H. C. Kendall.* Tells of cooking and how Juniors are taught.

Military Promotions, *by E. W. Magnus.* Life of a soldier working up. "We expect a Corporal of Him."

Nobody's Fool, *by J. E. Miles.* Tells how an innocent boy made good.

Revised

A govermnent of the Cadets, for doing the Cadets, by the consent of the Cadets.

According to Appearance

A stranger stepped up to Slattery at the horse barn and asked if he could buy a horse.

"You had better see the Commandant." suggested Slattery, with some indignation.

"Oh," said the stranger, "I thought you were the Commandant, "

An Unusual Spendthrift

Father Jacobs trying to get at the cause of trouble between Jake and Mike.

"Look here Jake, what is the trouble between you and your brother?"

Jake, replied, "He almost drives me to death, first he askes me for $.50, then $1.00 and then another dollar."

"But, Jake, what does he do with all his money?"

"I don't know, I don't give him any."

Donahue vs. Leete (In sleeping match—)

After waking up.

Leete, "Came out of it all right but hungry."

Donahue, "I came out with a blistered leg burnt on the radiator while sleeping."

The Justice of Things

Dean L. I. (In Senior Military, reading "The General moved his Corpse across the River."

The Way of Justice

Burch going to Summary Court.

"Hey Mutt Adams, do you expect justice?"

Adams, "Not from him, why I would as soon expect mercy from Parks as from him."

Advise to Rooks

To avoid undying criticisms.

"Say Nothing: Be Nothing: Do Nothing."

Non-Com. Staff

Six Rosy boys at Reveille March,
Leaped from their beds, as if to fight.
Fronted the Major and as he spoke,
Leaped to their beds as if they had croaked.

Notice

A. P. Leete has three points which he would like to argue with anyone.

Donahue got wind of a certain story

"Donahue," says Homer, "What do we have in Metoreology?"
Homer, "Wind,"
Donahue, "I know the wind blew last night, but tell me where the lesson is."

Rand is doping promotions again

It is too bad Plug had to go over to the Com's office on that egg affair, he is bucking so hard.

It doesn't matter

1st. Lieut. Creed of Troop B. (Signing a pass on the night of Jan. 26, 1911)
1st Lieut, Creed, Commanding the Band.

Who Lost

Therrio (after tossing up a coin to see if he would sweep out for inspection) Well, Lieut., you lost. I hope you are a good loser."

Out the Night before

1st. Sergt. Hemenway (forming Company) "Count-off, Port-Arms, Open-Chambers, Close-Chambers, Dismissed,"

TO OUR BASE BALL TEAM

Air—The Wearing of the Green

If to college you will want to go and wish to get in fine,
Just listen; I will sing of one that will make you stand in line.
It's way up in the high old state, where the mountains they are green,
And the fellows all wear uniforms, they think they're so serene.

With their heads held high, their chins way up, they think they're just the stuff,
But if at times you'd peek at them, they're nothing but a bluff!
There's Murray—he'd stay up all night , wouldn't go to bed,
If he could only get your ear and fill it with baseball.

He's a peach at kicking foot-ball, he's every fellow's pal,
But if you're with him half an hour he'll wind up on his "Val."
There's one lad in college who thinks he's just the thing,
He throws his chest with all his might and imagines he can sing.

He trys to get the tenor—at music he's a shark,
When he thinks he's right in harmony, it's like ad doggie's bark.
Great big hands and awful feet, and at thir base he plays.
You must meet this black eyed darky, for his name is "Billey"Hayes.

There's Hemenway our captain, who hails from Portland, Maine,
He can hit the ball with all his might, but he 'd talk you most insane.
He's nearly off his trolley when he hears from near and far,
Say "Hemenway, have you got a match?—We want a Portland, Star."

Parkman, nicknamed "Checkers," he's a peach at pitching balls,
He's always preaching base-ball, for he played with Bellows Falls.
If you think he's up and coming you'll get an awful shock,
Poor "Checkers" he's a hayseed and a regular country gawk.

Our college plague is Gordon, he's manager of the base-ball team,
When reveille is sounded he is deep in some sweet dream.
But the Norwich boys are frisky and he's such an awful bore,
When it's time to leave the feathers, out goes Gordon on the floor.

He never lets the boys alone if they fix their rooms up slick,
He sneaks around when all is still and plays some horrid trick.
If ever we catch him at it we'll wallop him with the broom,
We'll make him beg for mercy for making rough house in our rooms.

Concord sends us Berry, from dear old New Hamp. state,
The fellows call him "Bonehead," but at pitching he is great.
The poor ding toed collegian, at mechanics up and missed
But he'll improve in 1912 when some nice sweet girl he's kissed.

There's a very dwedful fellow who doesn't give a wap,
He talks so kinda foolish, and he's such a handsome chap,
First Sergeant of our Company A, Johnny Miles is his name,
But when he talks of "Dwess Pawade" you'd have to blush with shame.

"Doc" Whitney is our base-ball coach, he'll also cure your ills,
And if you have a pain or ache he'll dose you up with pills,
The Norwich bo—ys just love him, he's honest and so fair,
His temper is so even, and the doctor doesn't swear!

If the fellows feel the least bit sick, the slightest pain or ache,
They'll rush for Doctor Whitney and illness try to fake.
But he's a brainy doctor and does the thing up square,
You'd travel, yes for miles around and you couldn't match his hair.

There's one up here who talks a lot, "Plug" Burwell, he's a card,
To be First Sergeant here next year he's working hard.
He's deep in love with one nice girl and soon a bride he'll take
A wedding down at Winsted, where there's such a pretty lake.

Unlucky chap, Oh! Sad, sad tale! our poor dear comrade "Plug,"
A horse got frisky, took his hoof, and kicked him in the mug.
No Easter trip down home for "Plug" he'll stay at old N. U.
And every time he thinks of it, the poor chap he'll boo-hoo.

Two that Norwich boasts of, about coin they can't agree,
Mahard, he wants what's his, and Shepard, so does he.
Each tells the other he is wrong, he must try and do what's right.
Say "Pay me what you owe me or there'll be an awful fight."

Ned Allen is so tall and slim, he can almost touch the sky,
At racing he can not be beat if he would only try.
His home is down at Hartford and you can guess the rest
None would use you as Ned Allen does, if you should be his guest.

Then shout, Hurrah for Norwich, our military school,
Where the boys are all so anxious to follow out the rule.
While half of us you must admit are an awful pack of rubes
And the other half without a doubt are a great big bunch of boobs.

Chorus.

Oh, we'll stick by dear old Norwich with its military drills,
We'll march around and think we're great while father pays the bills,
With our captains and sergeants, and the boys who beat the drums,
We'll pull and haul together, we're a pack of Norwich bums.

—"Musucal Peg."

During State Inspection;

Inspector stopping in front of Private Pal, Company A.
"Are you the Cook of this Company?"
Pal,—"No Sir: Color Guard."

Inspector stopping in front of Horse-Shoer Hemenway of Troop A.—"What can you shoe?"
Hemenway,—"Flies, Sir."

1st Sergeant Cannon gets fussed.

When falling in the company, he commands. "Port Arms." "March"

In concrete construction class

Prof. Dix,—"You want to pay strict attentions to the concrete dams."
N. Jacobs (waking up)"What are we going to have, one of those dam problems on the final exam?"

The True Spirit

After the same piece of soap had been passed to a score of different shelter halves, the inspector remarked; "I notice they all use the same kind of soap." Captain Tompkins, "Yes they are obliged to use the regulation soap up here, also tooth-powder and shoe blacking."

That same little word "If."

If you want to please Joslyn some time when he isn't talking, tell him he is getting tough.

If you find out sometime, Adams is telling the truth, believe him.
the Winter Term.

If Buck was a Deer, wouldn't he be cute. The pretty Buck ? ? ? ?

If Dowst doesn't stop going out so much at night with the "gang," someone in Manchester will have to be notified.

If Bradley isn't in love, then it is all rumor.

If Cannon accepts this trash, he will be crazy.

If every "cut" in structures represented a shovel-full, How soon will the Panama Canal be completed?

If Hemenway didn't live with the Editor in Chief—?—?—?

If Hoff can back up his bluff, he is a great man.

If Parkman hadn't returned the chapel books, what would have happened?

If Whipple will accept the job of athletic instructor, we will have a new gym.

If Witt lived up to his name, he would be funny.

If Hovey hadn't roomed with Heathfield and Magnus, they both might have flunked.

If the Gov. of North Carolina was here in Northfield with the Gov. of South Carolina, what would he say?

Parkman swallowed a "Stone"

Parkman recently took a geological trip to Barre—he is much wiser now.

FOOTBALL

HARVARD-YALE GAME OF VT.

NORWICH UNIVERSITY

VS.

U. V. M.

AT INTERCITY PARK

SATURDAY, OCTOBER 29, 1910

Both Teams are Exceptionally Strong This Year, and a Hard Fought Game is Assured.
Special Trains will Bring Large Numbers of Rooters from Each College.

Game Called at 3:00 P. M.

The NORWICH CADETS will be accompanied by the "NORWICH CADET MILITARY BAND" the "SNAPPIEST" college band in New England, which will lead the cadets in their famous "SNAKE DANCE" between the halves. Vermont claims for herself the best college band in New England, and there will be an intense rivalry between the two. This band will lead the Vermont rooters in their exhibition drill.

Here is the Opportunity for Everyone to Witness "The Big Game" of the Season in Vermont.

ADMISSION, 50 cents

Wants

Wanted–A padded cell for J. Buck.
Wanted–$500 reward for the one who threw the egg at the show.
Wanted–A new janitor for the Gym. Heathfield resigned.
Wanted–The payment of a few more term bills.
Wanted–About a hundred more girls in Northfield.
Wanted–Some new pieces for the band.
Wanted–Some kind of a prop for Lieutenant Parks.

The Wise Ones.

Found–An Art room in Carnegie Hall. Visitors not admitted.
Found–A white card from the Dean under each door after vacation.
Found–A number of chapel psalm-books in Parkman's room.
Found–That Prof. Dix is a wise old guy.
Found–That the Juniors who flunk Railroads cannot take Sen. Sum. Sch.
Found–A lady's slipper among the Business Manager's papers.
Found–Checkers weak point. Ask him?

The French Style

Professor Dix in materials, drawing a pressure curve.
"What kind of a curve is this?"
Jacobs N.–"A French Curve, Sir."

Norwich Slang

Bone—To study; to try; to cultivate.
Bonehead—One who passes Mechanics.
Bowlegs—Cavalrymen, one who rides on the hike.
(Junior) Buck—A Junior who loves Military.
Bucking—One who hopes to get what he deserves.
Bunkie—Your room mate or wife.
Cit—Wise guys who keep out of Military Colleges.
Cits——Anything but a uniform.
Crawler—One who lies to the O. D.
Demos—That which takes away privileges.
Hike—10 days of good time and rainy weather.
Hop—Dance.
Exams—When the Profs. find out what you don't know.
Major—One who hands things out in bunches.
Non-Com.—Cadets with a big head.
O. D.—A quiet one, looking for trouble.
Openers—A pair of Jacks. (Slattery and Colby.)
Rooks—One who seeks knowledge.
Sticks—2 hour tours. 5 Dem's.
Old Man—Instructor in Military.

In Junior Mineralogy

The Fus (s) ing point is hard to get.

Letter found in Dodge Hall

Sir;—

Enclosed find base drum, which belongs to the University. Please mend and fix for a bow legged man.

Yours truly,

.....?

It is a question

Com. Bayley should live up to rules and regulations of N. U. and not play on that violin during study hours.

He is liable to get stuck. By ? ? ? ? ? ?.

A wide awake resident

Civilian after the Vermont game seeing the score, N. U. 17 to 0 painted on his house. "Asked if Norwich won."

"No, Norwich did not win, they whitewashed Vermont.

Plays

Hamlet—Bradley.
Twelfth Night—Homer Howe in Barre.
John the Baptist—J. Buck.
As you like it—Colburn.
Our American Cousins—F. Pal.
If I were King—Slattery.
The Merchant of Venice—Jacobs.
The Coward—Donahue.
The Family—H. L. and L. I. Dean. J. E. and M. J. Buck.
Talk of New York—Heathfield.
Fortune Hunter—Whipple.
Broadway Gaity Girls—D. J. Smith, Field, Durfee, Hooper, Cram and Schwenger.
The Summer Widowers—Sabin and Richmond.
The Blue Mouse—Rand.
The man with the itching Palm—Parks.

The Ten Commandments at Norwich.

1. Thou shalt not enter a room during study hours.

2 Thou shalt not smoke during study hours, neither shalt thou sleep under beds or image thereof, for the Major will not hold him guiltless who does, and will assign him 2 hours of police duty.

3 Thou shall not curse or use profane language, for the result is police duty or demerits.

4. Six days shall thou toe the mark, and be exceedingly good, for the seventh which is Sunday, thou shall go to church and sleep.

5. Honor thy Captains and Lieutenants for they are wise guys and will surely stick you if they can.

6. Thou shall not sleep over Reveille.

7. Thou should not lie to the Major.

8. Thou shalt not horse the Military.

9. Thou shalt not lie to the O. D. when he says, "Thou art smoking", for thou shall be found out and suffer the penalty thereof.

10. Thou shall not use more privileges than due, for he who does shall not

Doped by the Oracle Pound Rand, Assisted by Mother Ray.

Music J. M. Skilling to be Musician with rank of Corporal, Co. C.
Corp. H. L. Deane to be Cadet Lance Corporal, Co. D.

Short Prayer (Grind Editor)

Now I get me up to shirk,
I hope I will not have to work;
If I should die before the night,
Thank the Lord there'll be no work in sight.

It is Rumored that—

Prexy has bought a new horse blanket.
That we are to have a new gym.
Heathfield has changed from E. E. to C. E. for the third time this year.
Deane H. L. sells most everything from a toothpick to a safety razor.
Dad is going to spring a test to-day. (Only one ahead of Dix now.)
Ray is bucking the military to get what he deserved his rook year again.
Buck, M. J. and J. E. are brothers by a degree from the Com.
Dowst and Hemenway got a calf.
Inglis' sister got married. Hard luck Dub, double cut and leave.
Captain Richmond thought he was sick one morning and went over to the doctor's at sick report. Doc. immediately got out his bottle of love tablets.
Carl and Neal are on the outs.
Homer Howe goes to Barre quite often lately. (We are wondering what for.)
Irish, W. H. is not Irish. What is in a name?
Nom-com. Staff go to Reveille once a week.

WHO'S WHO AT NORWICH

"The Old Man."—Boss.
"The Young Kid."—Ass't Boss.

Sunday A. M.

The Psalm of the Cadets.

The Com's eyes are upon me, I cannot sleep. He maketh me pay attention to the Sermon, I cannot nod. Yea, though the speaker be dry and weary there is no rest. His watchful eye is upon me, and I may read neither paper nor book, nor have a peaceful nap. Verily I have no rest. Exalted I shall be to become a senior and return to the ways of the wicked. Then may I sleep and read in peace, and I shall do all these things without the eyes of the Com. upon me.

Selah.

It pays to mumble

Captain Tompkins in Military. "Pal, how many officers constitute a Garrison Court?"
Pal.—"'Not less than one."
Com.—"V-ery G-ood."

Looks are Deceiving

Rook to Captain Starr who was O. D. "Sir, can you tell me what the O. D. looks like?"

The Ice man is always handy

Prof. Dix.—"In measuring a base line, how would you keep the tape at the same temperature?"
Beako.—"Put it on ice."

Sad Fate

Lost by I. T. K. * * * 3 1-2 Bbls.

The Floor is Hard

Dub Inglis takes a seat in Mining, but finds chair missing.

The Celebration

After the Vermont Game.
Homer to Bug. "Hold your breath if you want to cure the hiccoughs."
Bug.(Hick)—"Can't hold it, hic, it is too, hic, strong."

Sweet Dream of the Night Before

Major to Lieut who was in bed. "Where were you at Reveille?"
Lieut.—Down town on privileges."

HABIT.

The training of the mind by constant application to classic or business principles forms a habit for knowledge which makes success in professional or business life.

Very few people who learn to save ever get away from that habit. The millions in savings banks bear grand testimony to the great worth of the habit.
